## BUY A PENNY ARCADE

Small Investment—Big Profits—No Risk—  
No Trouble

THE illustration above shows an Exhibit PENNY WONDERLAND. It represents an attractive money making opportunity that is open to every wide awake investor. There is no other field of legitimate enterprise where the earnings are so large and certain. Exhibit Arcades appeal to men, women and children, provide good, clean amusement, and are the only type of concession operating for a penny.

Good locations are numerous—Amusement Parks, Summer Resorts, Traveling Shows, Dance Halls, Skating Rinks, Carousels, Fair Grounds, busy streets—everywhere the crowds gather or pass by. Our line comprises all kinds of large and small amusement machines suitable for stationary arcades as well as portable arcades. We supply equipments of all sizes to meet every requirement—see pages 52 to 57. Our files contain many letters from successful arcade owners testifying to the money earning power and reliability of Exhibit Arcade Equipments. During the last thirty years we have installed hundreds of attractive arcades throughout the country. The experience thus gained is entirely at your service and without obligation. Tell us your arcade problem—big or little—and our staff of experts will solve it for you. If necessary we will send an experienced man to work it out on the spot. "Invest In Exhibit Machines Where Every Dime Is A Baby Dollar."

## MACHINES ON SHARES

THE business of operating machines on percentage is now universally recognized as one of the best paying propositions in which a man may place his money, and the surface of this new method of making money has not been scratched.

Today it is possible to buy a great variety of merchandise thru the medium of vending machines. The most successful operators are those who invest in a variety of machines. The public is fickle. As soon as the novelty wears off of one machine and the earnings drop it is necessary to move the machine to a new location unless it can be replenished with a new and different kind of merchandise to keep it alive. A variety of machines will keep the operator from losing his good locations by placing a different machine in such location when it is necessary to remove the old one.

The American public are amusement lovers. Their surplus cash is generally spent for amusement. Realizing this, Exhibit machines made for the percentage operators, have been built along the amusement lines. Every machine is thoroughly tested, both as to its money earning ability and mechanical efficiency, before being offered for sale.

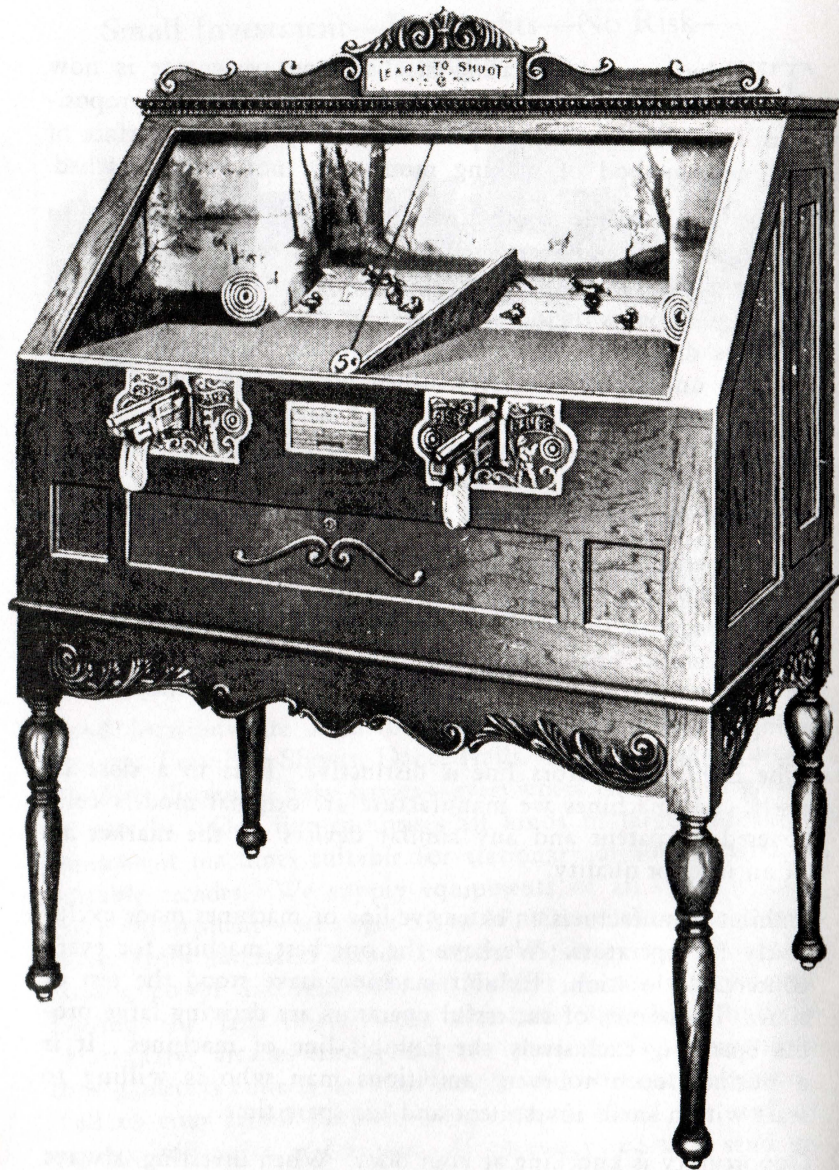

The Exhibit operators line is distinctive. It is in a class by itself. All machines we manufacture are original models fully covered by patent and any similar devices on the market are of an inferior quality.

Exhibit manufactures an extensive line of machines made exclusively for operators. We have the one best machine for every conceivable location. Exhibit machines have stood the test of time. Thousands of successful operators are deriving large profits operating exclusively the Exhibit line of machines. It is a business open to every ambitious man who is willing to start with a small investment and his spare time.

Opportunity is knocking at your door. When investing, always consider "the house behind the machines" and buy direct from the manufacturer.

## AUTOMATIC PISTOL RANGE

Price \$500.00

DIMENSIONS: Height, 5 ft. 7 in.; width, 4 ft.; depth, 28 in.; weight, 325 pounds.

WE are a nation of straight shooters. It is a heritage handed down by our Indian fighting forefathers. Where is the man, woman, or child who will miss the chance to show off his marksmanship. That is why you always find a crowd around the Exhibit Automatic Pistol Range. In and out among the trees and rocks the rabbits and ducks come and go—the players like the thrill of knocking over the moving targets. There are also stationary targets in which a bell rings when a player hits the bulls-eye.

The Exhibit Automatic Pistol Range is a wonderful ballyho—a class A concession in itself. The beautiful landscape in bright natural colors, combined with the continuously moving targets, are an everlasting attraction. Hardly a person ever passes this amusement machine without first testing his shooting skill. And it is so easy to load and shoot the pistols—just insert a coin in the slot and push the small knob on the side, and the pistol is ready to use. Each press of the trigger shoots a steel ball—10 shots for 5c. Two players can shoot at once as the machine is divided into two separate shooting galleries. This feature practically doubles the earnings—players like to compete to see who is the most expert marksman. Whenever a moving target is knocked over, it is automatically set up again. The pistols are made with watchlike precision and built for long service. Each pistol re-loads itself as fast as fired.

All unnecessary parts have been eliminated from the mechanical construction—the machinery is simple in design and built strong to stand up and wear a lifetime. The power is furnished by a high grade electric motor. When ordering specify voltage and cycles of motor required. Each pistol has its own large cash box with strong door and lock. A special feature is the large handsome walnut finish cabinet built in accordance with the latest up to date workmanship. The four legs can be quickly detached, enabling the owner to pack the complete outfit in the least possible space. This feature appeals especially to traveling showmen and carnivals.

The Exhibit Automatic Pistol Range quickly stimulates business wherever it is installed. No modern arcade is complete without one. It is a splendid investment, bringing in steady earnings and paying for itself over and over again.

This machine is now being operated in some of the finest hotels in this country. As an operator's machine it has proven itself both profitable and reliable.

## EXHIBIT IRON CLAW

FLOOR SIZE MODEL E

THE sensational earnings of the Exhibit Iron Claw during the last 5 years easily places this machine as the leader of all coin operated amusement devices. It is generally operated for a 5c play, in which case weekly gross receipts of \$50.00 to \$150.00 are the usual thing. Arcade managers report that the introduction of one or more of these machines in an arcade invariably doubles the receipts, so great is its drawing power. But the Exhibit Iron Claw is not exclusively a Penny Arcade machine. It has proven itself especially adapted to place out in public places on a percentage basis. More and more of the large progressive operators are securing territory and successfully installing Iron Claws in Recreation Centers; Dance Halls; Terminal Stations; Resorts and Chain Stores.

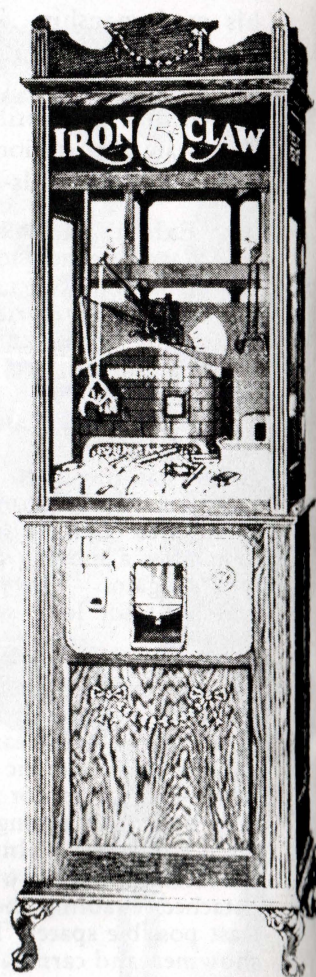

It is a mechanical wonder—a miniature model of an excavating construction machine that works just like its big brother. People play it over and over again just to see the machinery operate. Large windows permit the crowd to watch it from three sides. The candy in the machine represents the gravel, and the favors represent the rocks. An added attraction is the fun of "trying for a favor." The player gets a portion of confection each time, whether or not he is skillful enough to direct the claw where it will pick up a favor for him.

By turning the small crank in front of the machine a player may select the spot where the iron claw will dip down. He then deposits his coin and the mechanism automatically goes through a complete operation in about 10 seconds—it is a fast worker. This new improved model is now fitted with a coin register. It has a large cash box with high grade lock. The power is furnished by a special 110 volt Universal motor.

Handsome large oak cabinet with flashy top electric display sign. The Exhibit Iron Claw gets more money than any amusement machine ever manufactured.

Price \$275.00

DIMENSIONS: Height 6 ft. 9 in.; width 26 in.; depth 21 in.; weight 150 lbs.

## EXHIBIT IRON CLAW

COUNTER SIZE MODEL E

THE Counter Model Iron Claw is a condensed model of our famous Floor Model Iron Claw and is designed especially for Carnivals, as well as Operators. Two Counter Iron Claw machines should be included in every Carnival Penny Arcade equipment. From 5 to 12 Counter Iron Claws make an attractive concession that will get more money than many rides. See pages 58 and 59.

The Iron Claw is becoming well known everywhere. However, for the benefit of operators who may not understand the machine, we will describe the operation. The person playing the machine first picks out the favor he wants; then the Locator Wheel is turned to show approximately where the Claw will drop, as indicated by the Arrow above the warehouse. The player then puts a nickel in the slot, which starts the machine. The Claw automatically turns to the position chosen, drops down, and grabs a few pieces of candy and sometimes a favor. The Claw then raises, swings back over the opening, and drops the contents into a chute leading into the Sanitary Delivery Cup. The complete operation takes only 10 seconds.

The Exhibit Iron Claw does not stop in three or five places, but stops anywhere it is set to stop in advance by the player—this is what makes the Iron Claw a real genuine 100% skill device—it is 10 times as fast as any similar machine made. Its earning capacity is 30c per minute. Weekly gross receipts per machine are from \$50.00 to \$150.00. The Exhibit Model E Iron Claw is sold under our regular 90 day guarantee.

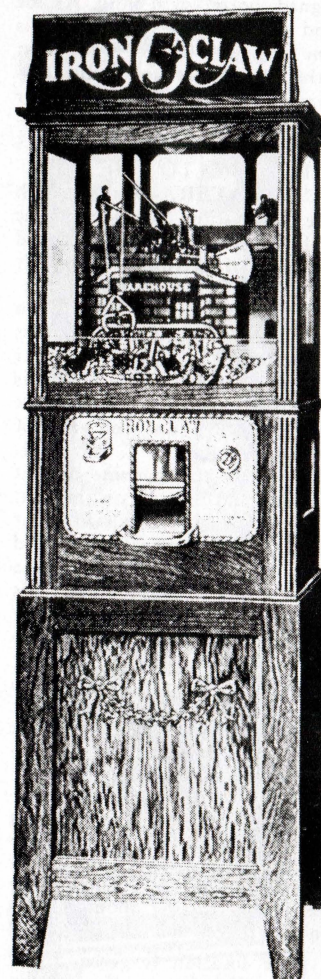

Special Features: Automatic mercury Coin Switch; Multi-adjustable Claw, allowing for a forward and backward movement, as well as the right and left movement; spurious Coin Ejector; a Register, which counts the plays; separate, extra large Cash Box inside cabinet under separate Yale lock. Built of finest select Oak natural finish.

The Floor Model and Counter Model are mechanically the same construction.

DIMENSIONS: Height with top sign, 48 inches. Height without top sign, 36 inches. Width, 21 inches. Depth, 19 inches. Weight, 85 pounds.

Price \$225.00

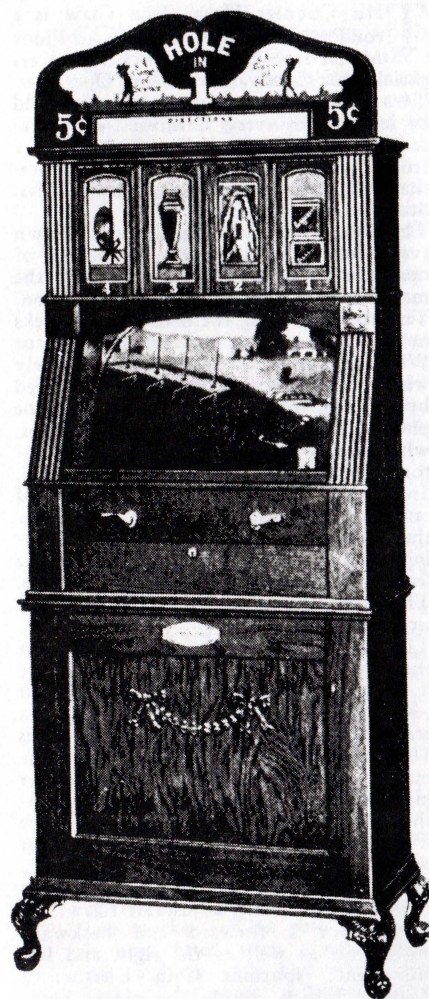

☛ Oak Base \$10.00 extra. Height, 28 inches. Weight, 40 pounds.

## "HOLE-IN-ONE"

A GAME OF SCIENCE AND SKILL

HERE is a new 5c play amusement machine designed both for Penny Arcade and operating usage. There is one big reason, not found in other game devices, why this machine excels in earning power—THE HOLE-IN-ONE AUTOMATICALLY DELIVERS A REWARD TO THE SKILLFUL PLAYER. Coupled with the fascination of making the hole in one, there is the added pleasure of getting a prize. It looks easy, but it takes practice, and the player tries again and again. When the nickel is flipped into a Hole the player presses a lever and receives his reward. There are four prize compartments, one for each of the holes Nos. 1, 2, 3 and 4. To operate the machine deposit a nickel and push in on the slot. The nickel rolls down in front of the golfer whose arms and club are manipulated by a thumb lever. By working this lever with just the correct degree of skill the golfer's club will "Drive" the nickel out onto the "fairway" and into one of the "holes." Coins that win drop into special divisions in the cash box. This gives the operator a check on merchandise given out. As the nearest hole is easiest to hit the rewards range in value from the lesser prize, costing about 15c. in compartment No. 1, up to the best prize, costing about \$1.00. in compartment No. 4.

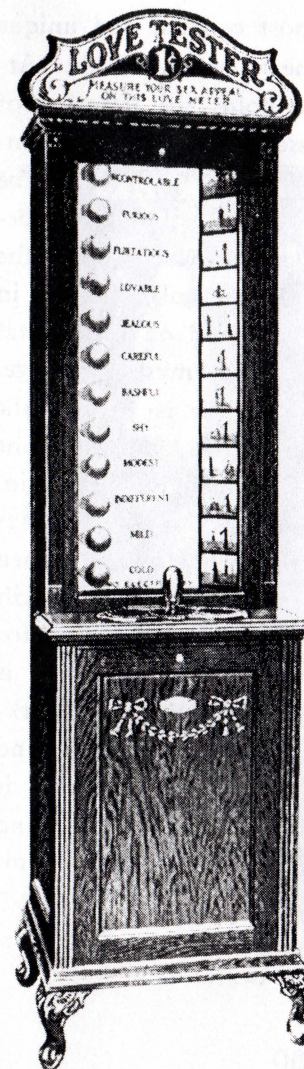

The Hole-In-One pays out 35% in prizes. The location is given 25%. This leaves a clear profit of 40% for the operator. Our improved coin slot rejects iron and steel slugs, perforated checks and washers, as well as pennies. The machine is very handsome in appearance and built to stand up and give satisfactory service.

Price \$275.00

DIMENSIONS: Height, 6 ft. 6 in.; depth, 16 in.; width, 30 in.; net weight, 150 lbs.

## LOVE TESTER

"MEASURE YOUR SEX APPEAL"

HERE is the greatest joy maker and fun producer ever made.

Keeps the crowd roaring with laughter from opening until closing time. Everybody waits their turn to play the Love Tester—men, women and children. It is not an electric nor an athletic machine—simply deposit the coin, squeeze the handle and a lamp lights up showing the player whether he is lovable, jealous, bashful, cold, etc. Opposite each lamp is a comic picture portraying the player's disposition. The Love Tester machine is quick play and requires no servicing. All it takes in is profit. The working parts are made heavy and strong for long wear. The machine is a big flash—attractive top sign and brilliantly lighted interior display. Cabinet finished in handsome golden oak.

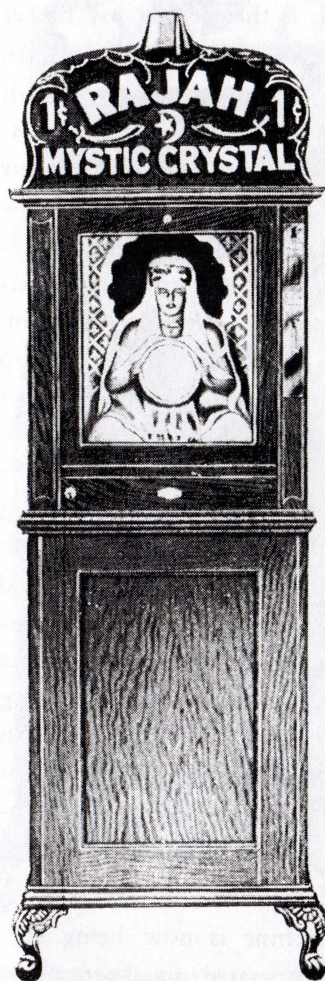

This machine is now being successfully operated on a percentage basis in restaurants, chain stores, etc.

Price \$250.00

DIMENSIONS: Height, 7 ft.; width, 23 in.; depth, 18 in.; net weight, 135 pounds.

## RAJAH FORTUNE TELLER

THE most original and unique fortune teller ever made. Attracts and holds the attention of every passerby. There is an immediate desire to see "what the Crystal will tell." The player deposits his coin and holds down the handle. The display lights in front go out and on the crystal there appears a mystic message. When the handle is released the writing disappears and the front of the machine lights up again. There are forty successive readings suitable for either men or women—each one different. The Rajah gets a steady play and pays for itself over and over again. It is designed for long use—the working parts are simple in design and easily accessible. The cabinet is natural finished golden oak and equipped with separate cash compartment.

Also sold without base for carnivals and operators.

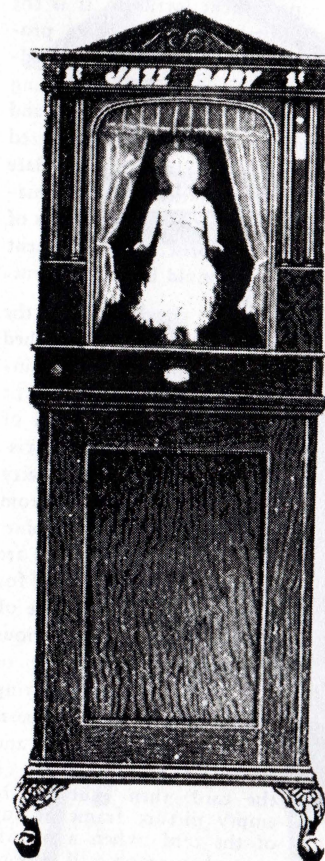

Price \$200.00

Price without Base \$185.00

DIMENSIONS: Height, 6 ft.; width, 22 in.; depth, 17 in.; net weight, 95 pounds.

## JAZZ BABY

DANCING DOLL

THE Jazz Baby gets a continual stream of pennies. No one will pass her by without paying a cent to see her dance—and how she can wiggle! Every penny buys a laugh. Talk about your Shimmy Shaker, the Jazz Baby has a movement all her own. Insert a penny and press down on the handle. Immediately she commences to work her shoulder and shake her body like a real Salome. This Jazz Baby has "IT." The ornamental golden oak cabinet is of handsome design finished in attractive colors and brightly lighted. The cast aluminum doll's figure is draped in richly colored silks just like a real oriental dancer. Well made mechanism, operated by a small electric motor—no clock work to wind. Roomy cash compartment under separate Yale lock. Also sold without base for carnivals and operators.

Price \$125.00

Price without Base \$110.00

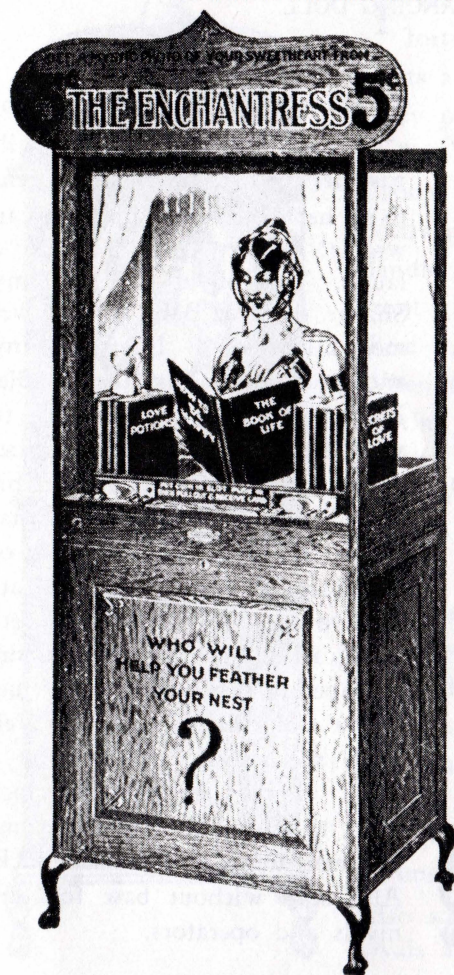

DIMENSIONS: Height, 5 ft.; width, 22 in.; depth, 16 in.; net weight, 80 pounds.

## ENCHANTRESS Fortune Telling Machine

IMPROVED ELECTRICALLY DRIVEN MODEL

In this new model the Lady figure moves her eyes, and thanks the player by bowing her head several times after each coin is played.

There are 16 different cards for men and 16 for women. Enough cards are included with each machine to pay back its original cost.

Finished in natural golden oak. All metal nickel plated. Fitted with our Exhibit patented slot. Metal card compartments. Simple, strong mechanism.

**Price \$350.00**

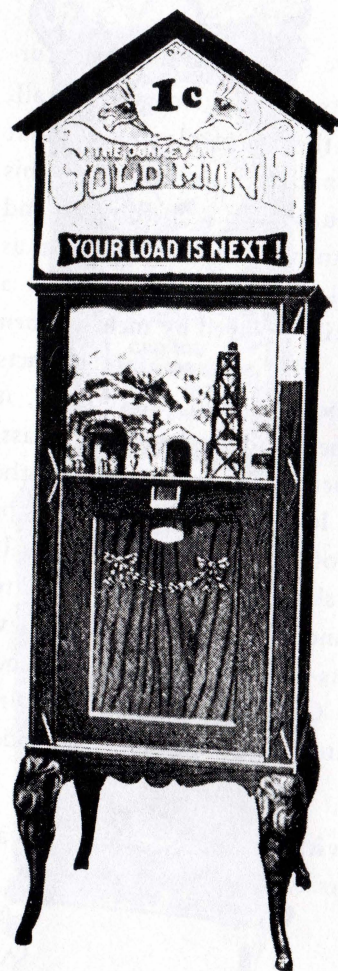

Including 7,000 free cards which you sell for \$50.00 per thousand.

Reorders of cards cost \$16.50 per thousand.

DIMENSIONS: Height 7 ft.; width 34 inches; depth 24 inches; weight 200 lbs.

## GOLD MINE

(IMPROVED MODEL)

A FASCINATING amusement machine that never fails to attract the attention of the public. People play the Gold Mine just to see it operate. Inside the cabinet is a beautiful picture of snow covered mountains and trees. In the foreground, built in relief, is the Tunnel, Shaft, and Engine House painted in natural colors. The Derrick has real wheels and cable which revolves while the machine is working. When the player deposits a coin, the Donkey harnessed to a cart containing a Gold Brick, comes out of the Tunnel. He moves up to the front, turns around, and dumps the gold brick out of the cart into the cup in front. The Donkey then pulls the cart out of sight into the Shaft to get another gold brick for the next player.

The gold brick is a gold colored card containing different good news for each player. The Gold Mine is a handsome well made machine with large attractive top display sign. It runs with a high grade electric motor. The cabinet is mounted on four 12" massive iron legs. Here is a machine that is a Gold Mine in earnings as well as in name—a profitable investment for any arcade or for any place where people congregate. Gold Mine cards cost only \$2.50 per thousand.

**Price \$250.00**

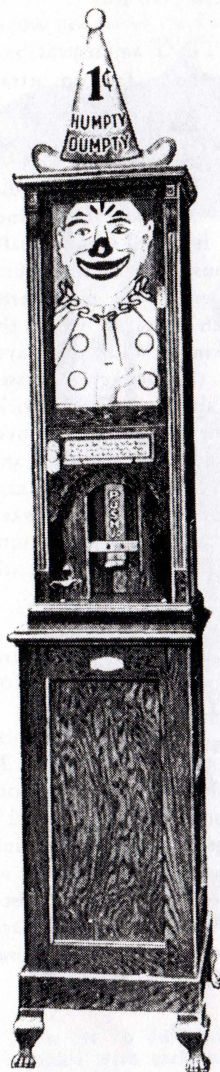

Including 5000 free cards

DIMENSIONS: Height 6 ft. 9 in.; width 26 in.; depth 21 in.; weight 200 lbs.

## HUMPTY DUMPTY

THE PENNY SWALLOWING CLOWN

AN attractive new machine that furnishes lots of amusement for all. Players try for the fun of playing without paying. Try and flip the coin into his mouth. If you succeed a bell rings and the coin is returned to you. It's not as easy as it looks. Humpty Dumpty is a real game of skill—played by men, women and children. His smiling face attracts everyone. When the coin is deposited, it drops into the hand back of the glass. The player then pushes up sharply on the knob in the lower opening. This flips the coin out of the hand into the air. If the player is skillful, the coin drops into the Clown's mouth. There are only a few movable parts—nothing to wear or get out of order. Cabinet is finished in golden oak. Separate cash compartment under Yale lock.

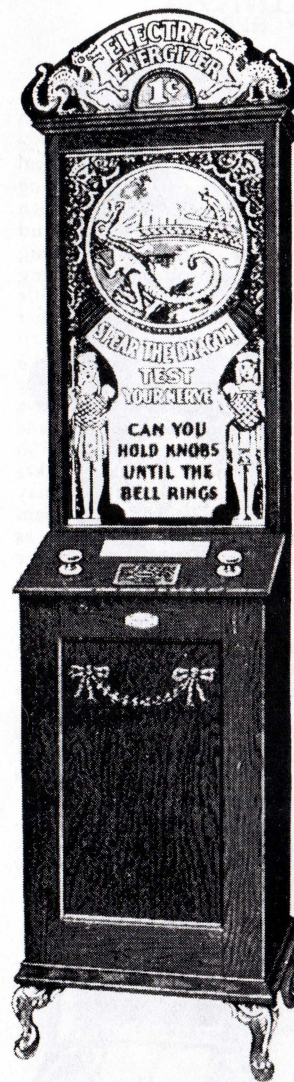

Also sold without cabinet for carnivals and operators.

Price \$150.00

Price without Base \$130.00

DIMENSIONS: Height, 7 ft. 6 in.; width, 20 in.; depth, 21 in.; net weight, 135 lbs.

## ELECTRIC ENERGIZER

THE best and most novel electric shock machine in the world. Not only does the player get the thrill of the electric current, but he has the fascination of watching the Warrior move across the bridge and spear the Dragon, whereupon the bell rings. The Electric Energizer is the only machine of its kind made to run with an electric motor.

To operate, the player drops in his coin and grasps the two handles. At first the current is very soothing, but as the Man with the Spear approaches the Dragon, the current becomes stronger. The player tries to hold the handles until the bell rings. Beautifully finished display front with attractive top sign. Cabinet finished in natural oak with nicked trimmings. A very handsome machine that gets a big play.

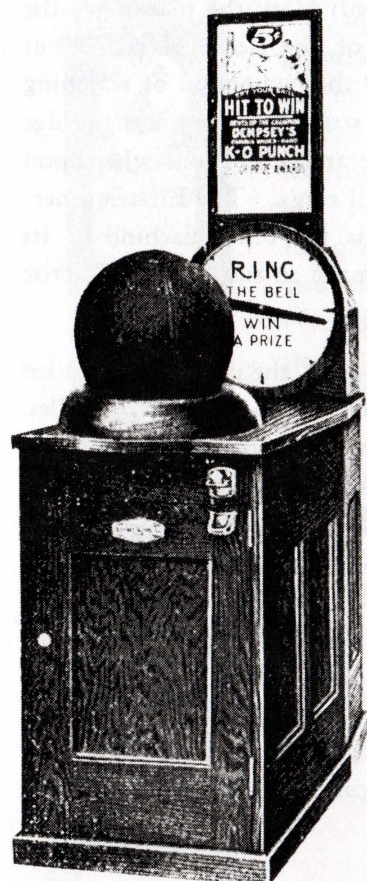

Price \$175.00

DIMENSIONS: Height 7 ft. 4 in.; width 17 inches; depth 20 inches; weight 130 lbs.

## HIT-TO-WIN

PRIZE PAYING BAG PUNCHER

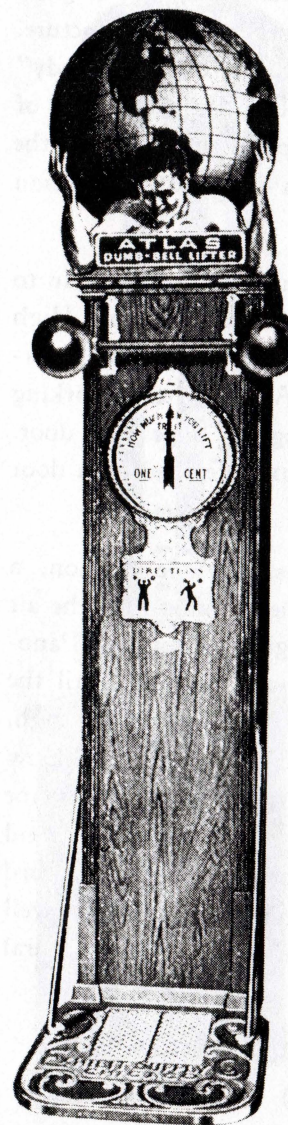

THIS is our famous Champion Puncher converted into a 100% game of skill—nickel play. A real operator's machine. Reward paying feature makes it a big repeater. When bag is struck and the indicator hand stops on any one of the four winning spots on the dial, a bell rings, denoting that the player gets from 10c to 50c in trade. The Hit-to-Win Puncher can run anywhere and it is easy to locate—the operator takes from 25% to 35% of the gross and gives the balance to the merchant who pays each winner in merchandise or trade checks. The machine pays about 35% in trade, upon which the dealer makes his regular profit, or operator may furnish his own prizes and leave them with location who give prizes out as they are won. With this method the cost of prizes are taken from cash box before split is made. Quick play and no servicing. Equipped with our improved coin slot, which rejects iron and steel slugs and perforated checks and washers. Register device keeps a record on the number of plays. Strong, roomy cash box with Yale lock. This is the most compact bag puncher ever made. The bright colored display sign is detachable. The mechanism is simple as A B C and easily accessible. Built to last for years. Will get the money every day—earning capacity 30c a minute.

Send for special descriptive circular.

⚡ This machine is now being operated successfully by both penny arcades and travelling shows. See pages 60 and 61 for the "Hit-to-Win" concession.

Price \$225.00

DIMENSIONS: Height, 45 in. without top sign; width, 19 in.; length, 43 in.; net weight, 180 pounds.

ATLAS  
DUMB-BELL LIFTER

ONE of the most popular strength testing machines made. Its large and attractive size draws a crowd, and players compete to see who is the strongest. The Dumb-bells can be lifted to test the strength of one arm, or the player can lift with both arms. As the Dumb-bells are raised, the hand moves around on the dial, indicating the strength of the player. The hand remains at the highest point until released by pressing a button. Gong rings when the dumb-bell is lifted to any certain adjustable weight.

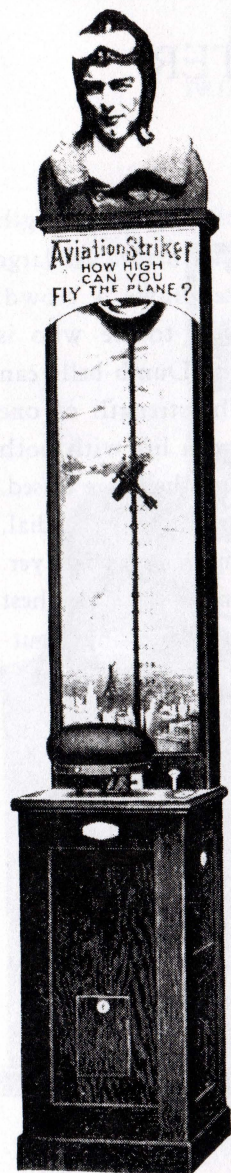

The large life-like figure of Atlas supporting the World adds to the imposing appearance of the Dumb-Bell Machine. The massive iron base with supporting braces insures strength to withstand extra hard usage. The cabinet is finished in natural oak with nickeled trimmings.

Price \$225.00

DIMENSIONS: Height 8 ft. 10 in.; width 27 inches; depth 36 inches; weight 250 lbs.

## AVIATION STRIKER

ONE of the most handsome and original athletic machines we manufacture. The natural colored head of our "Lindy" combined with the beautiful Panorama of land, sea and airships in the air, make the Aviation Striker an immediate attraction wherever it is used.

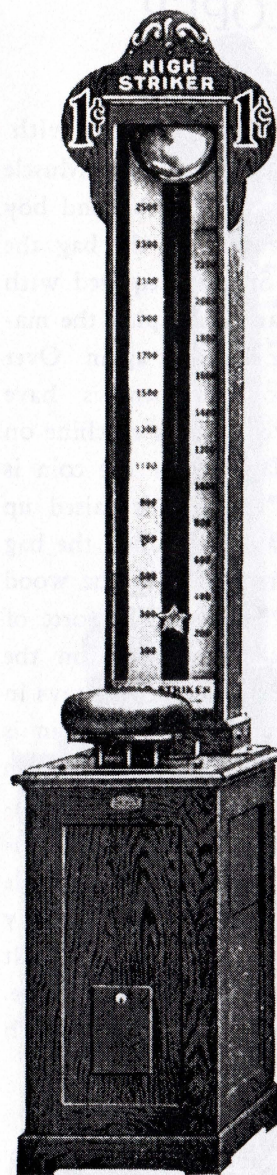

The mechanical construction is similar to that used in our famous Exhibit High Striker, which has given such splendid service everywhere. Access to the working parts is had through a large side door. The roomy cash box is reached by a door in front.

When the player strikes the cushion, a real model aeroplane soars up into the air to an elevation registered on the Panorama Picture, and remains there until the next coin is deposited. If hit hard enough, a clear sounding gong will ring. "How High Can You Make The Aeroplane Fly?" Everybody — men, women, and children will try for a new altitude record on this fascinating machine. Heavy well made cabinet finished in varnished natural oak.

Price \$225.00

DIMENSIONS: Height 9 feet; width 18 inches; depth 19 inches; weight 165 pounds.

## HIGH STRIKER

A BRAND new idea in athletic machines. You have often seen the large crowd around the giant striker at fairs and carnivals — everybody trying to ring the bell.

Our High Striker is this same great game made into a penny machine. A popular amusement reduced from a dime to a penny. The blow is delivered downward — a novel feature appealing to every player.

Every part of our High Striker is made extra strong and reinforced. The strike-cushion is fitted with double springs, felt lined and tough leather top.

The mechanism is simple, strong and accessible. To operate the player puts a coin in slot, pulls lever to release the star, and machine is ready for strike. Star indicator registers the force of the blow and remains in position until next play. Hard hitters can ring the 8" fire bell. Strong cabinet finished in natural oak.

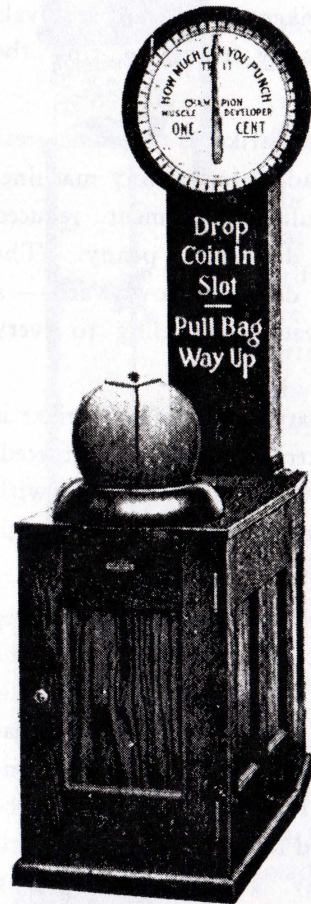

Price \$200.00

DIMENSIONS: Height 8 feet; width 18 inches; depth 19 inches; weight 140 pounds.

## CHAMPION MUSCLE DEVELOPER

PUNCH BAG

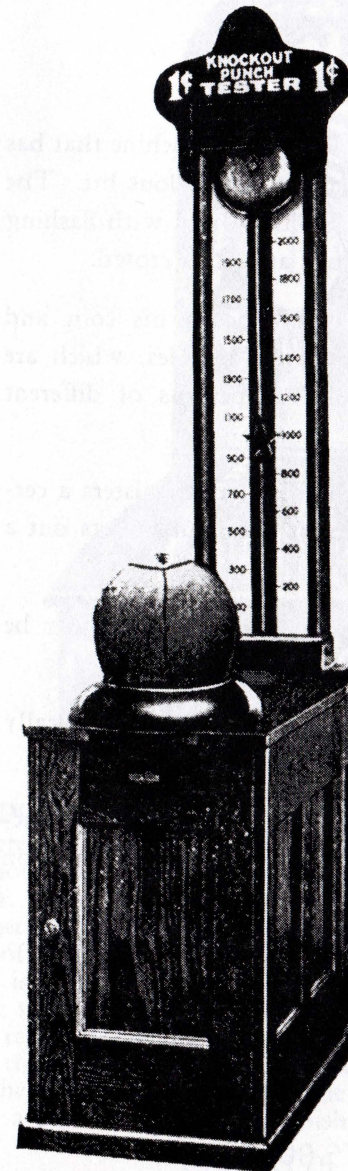

NO arcade is complete without a Champion Muscle Developer. Each man and boy thinks he can hit the bag the hardest. Skill is acquired with practice, and they play the machine over and over again. Over three thousand pennies have been played in this machine on a busy day. After the coin is deposited the bag is raised up until it catches. When the bag is hit it returns into the wood collar and locks. The force of the blow is registered on the dial by the hand which stays in position until the next coin is played. The bag is made from the toughest leather. Our improved mechanism in the Champion Muscle Developer is simple and very strong—in fact every part of the machine is built heavy to stand rough usage. Handsome natural oak finish cabinet.

Price \$175.00

DIMENSIONS: Height 6 ft. 4 in.; width 20 in.; depth 41 in.; weight 150 lbs.

## "KNOCKOUT" PUNCH TESTER

PUNCH BAG

THIS machine has an everlasting attraction for men and boys. They will congregate around the Knockout Punch Tester by the hour and compete to see who has the hardest punch. Even ladies have a lot of fun striking the bag. The play is fast and the pennies simply roll in.

The Knockout Punch tester is an absolutely new punching bag idea. The mechanism is simple—there are only a few parts, all of which are strong and easily accessible.

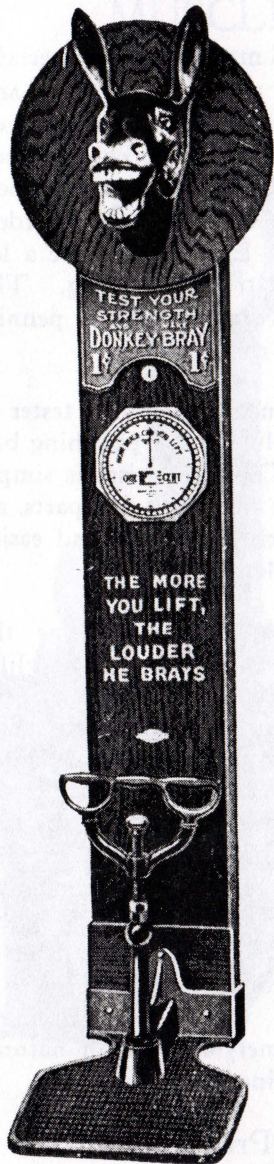

To operate the machine the player deposits his coin and lifts up the bag. The force of the blow is registered by the star which stops on the mark until the next coin is inserted. If the blow is strong enough the bell rings. The bag returns into the wood collar after each blow, and locks. The very toughest leather and best workmanship is put into our bags. This is a strong, well made machine, handsomely finished in natural oak cabinet.

Price \$250.00

DIMENSIONS: Height 8 feet; width 20 inches; depth 41 inches; weight 160 pounds.

## BRAYING JACKASS LIFTER

A NEW athletic machine that has made a tremendous hit. The life size Donkey head with flashing eyes always attracts a crowd.

The player deposits his coin and lifts up on the handles, which are adjustable for persons of different height.

When the dial hand registers a certain amount the Donkey lets out a loud bray.

The greater the lift the louder he hollers.

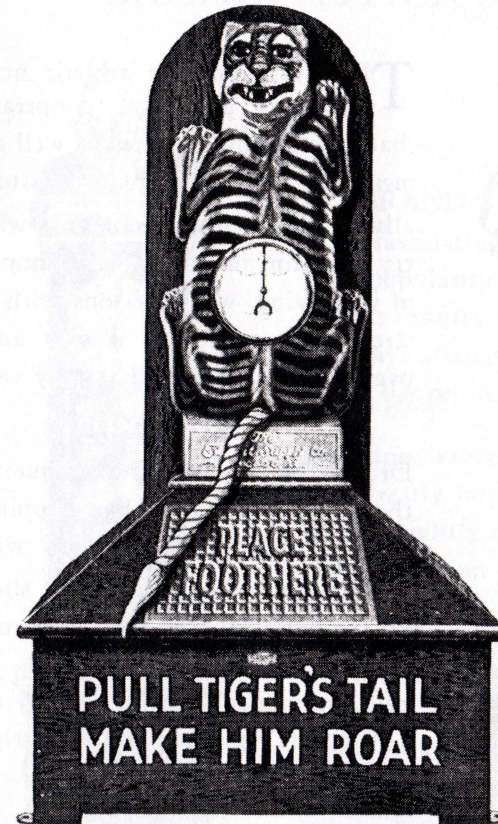

The horn is operated mechanically—no electricity to give trouble.

The Jackass Lifter is a large, attractive machine—a profitable addition to any arcade.

Price \$175.00

DIMENSIONS: Height 7 ft. 7 in.; width 23 in.; depth 28 in.; weight 200 lbs

## TIGER TAIL PULLER

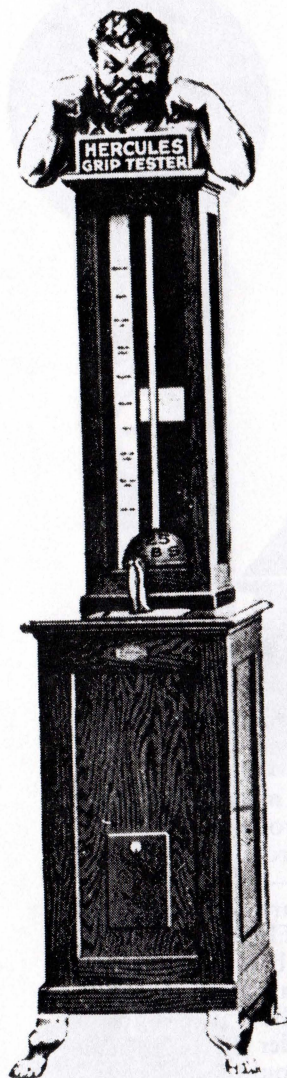

A POPULAR new athletic machine that has made a big hit wherever displayed. The boys will gather around the Tiger the hour to see who can pull his tail the hardest and make him roar. The horn is operated mechanically—no electricity. The Tiger machine is built extra strong. The figure of the Tiger is made of cast iron painted in natural colors. The base of the machine is a heavy cabinet mounted on four base plates for fastening to floor. When the player pulls the tail the hand on the dial registers the amount. If the player pulls 150 pounds or more the Tiger lets out a loud roar—the harder the pull the louder the roar. This novel money getter should be placed in every arcade. Natural oak finish, aluminum foot rest.

Price \$175.00

DIMENSIONS: Height 5 ft. 4 in.; width 33 in.; depth 20 in.; weight 200 lbs.

## HERCULES BALL GRIP

THIS is a popular athletic machine—it is so easy to operate that women and children, as well as men, give it a steady play. Naturally persons with a poor grip will try it again and again with hopes of improving, while persons with a strong grip will play it over and over again to show what they can do.

Drop a cent in the slot and squeeze the handles together by gripping them with your hand. You will see the ball in the glass tower slide up the brass tube. There are numbers 100, 200, etc., up to 1000. A bell automatically strikes for every 100 points registered and this helps attract the crowd.

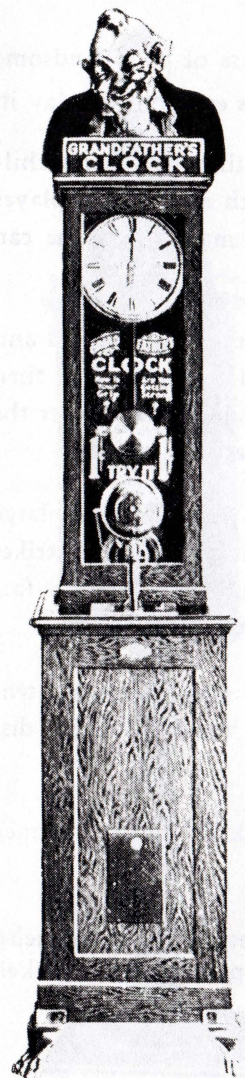

The mechanism is simple and made of heavy parts. Nickel plated handles.

Strong, natural oak cabinet. A large life-size, natural colored figure of Hercules ornaments the top of the machine.

Price \$175.00

DIMENSIONS: Height 7 feet; width 21 inches; depth 21 inches; weight 125 pounds.

## GRANDFATHER'S CLOCK

A BRAND new model of the most fascinating grip tester ever made. The popularity of the Grandfather's clock is country wide—everywhere this attractive strength tester is used it has been a big penny getter.

The appearance of the machine has been greatly improved by the addition of the brightly colored smiling grandfather figure on top of the cabinet.

To operate, the player puts in a penny and squeezes the handles. The strength of the grip is registered by the clock hand. At the same time the pendulum swings back and forth. When the grip is released the clock hand returns and a loud bell strikes the number of hours registered on the dial. Front door cash box.

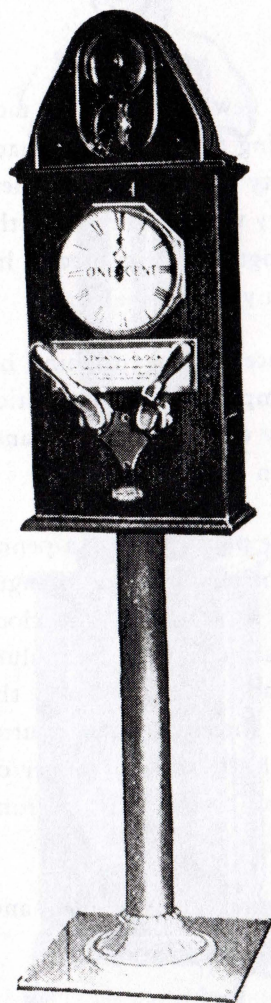

Handsome natural oak cabinet and nickel plated metal parts.

Price \$175.00

DIMENSIONS: Height 7 feet; width 21 inches; depth 21 inches; weight 130 pounds.

## STRIKING CLOCK

THE attractiveness of this handsome machine invites everyone to play it.

It is a favorite with women and children as well as with men. Each player wants to see how many hours he can register on the dial.

To operate, the penny is deposited and one handle gripped in each hand, then as the handles are squeezed together the clock hand moves around the dial.

When the handles are released a large bell on top of the machine loudly strikes the number of hours registered on face of clock.

The sound of the gong attracts attention of everyone within hearing distance.

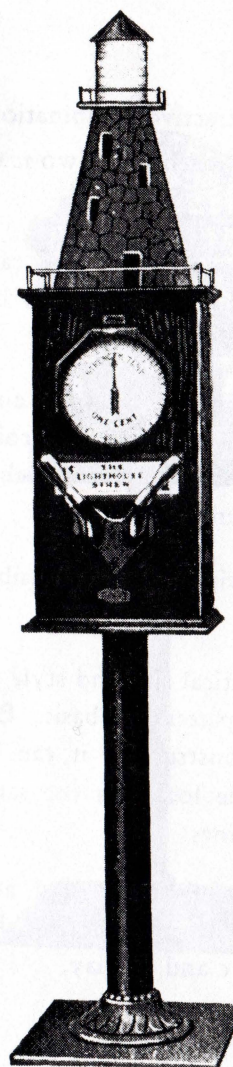

The Striking Clock is a proven money getter.

Natural oak cabinet. Green enameled pedestal. Metal parts bright nickel-plated.

Price \$150.00

DIMENSIONS: Height 6 ft. 3 in.; width 18 in.; depth 18 in.; weight 150 lbs.

## LIGHTHOUSE SIREN

THE Lighthouse Siren is an irresistible money maker — it quickly catches the eye and the pennies.

The loud horn in the Siren attracts the attention and the hy-lo lamp in the Lighthouse guides the player to the machine.

To operate, the player grips a handle in each hand and squeezes them together. When the handles are released the Siren blows. The harder the handles are pressed together the louder the noise and the longer it lasts. The horn is mechanically operated—no electricity.

All working parts are simple and strongly made.

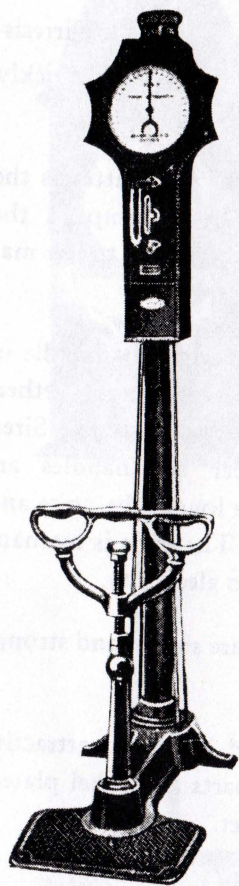

Machine is finished in bright, attractive colors and metal parts are nickel plated. Natural oak cabinet.

Price \$150.00

DIMENSIONS: Height 7 feet; width 18 inches; depth 18 inches; weight 150 pounds.

## COMBINATION LIFTER AND GRIPPER

**A** STRONG, attractive combination lifter and grip machine. Two machines in one.

By depositing a coin the player can either test the strength of his grip or test his lifting power.

The dial hand registers either pull and stays on the mark until the next coin is played. The handles are adjustable for persons of different height.

This Lifter and Grip is an indispensable arcade machine.

It is also of a practical size and style to be placed out on percentage basis. Being of all iron construction it can be operated in outside locations the same as weighing machines.

This machine is finished in red and black enamels with polished nickel parts. Made for 1c and 5c play.

Price \$100.00

DIMENSIONS: Height 59 inches; width 13 inches; depth 25 inches; weight 100 lbs.

## ELECTRIC VITALIZER

**A** GREAT fun producer. Attracts the crowd and makes them laugh. They all try it to see who can take the hardest shock. There is no danger—the current starts very gently and increases gradually under the control of the player. Many players come every day to take the electricity as a curative treatment for the nerves. To operate, the player deposits a penny and grasps the handles. By turning the right handle slowly the current is increased in strength and is registered on the dial. By practice a person can take an increased amount each time. The front and top sign is of cast aluminum with embossed figures and inlay design, painted in many bright colors making this a very attractive machine. The mechanism is well made and operated by one standard dry cell. The Electric Vitalizer is sold with or without pedestal.

Price with Pedestal \$75.00; without Pedestal \$65.00

DIMENSIONS: Height 5 ft. 4 in.; width 21 in.; depth 12 in.; weight 90 lbs.

## PALMISTRY FORTUNE TELLER

FOR hundreds of years palm reading has been the favorite method of telling fortunes. "The hand of a man is the make of his life." That is why the Exhibit Palmistry is one of the most popular and profitable fortune telling machines. The top sign is an aluminum casting inlaid in flashy colors and mounted on heavy oak frame. The front sign display is an attractive papier mache design showing the figure of a lady fortune teller painted in bright colors. On the lower cabinet is a large aluminum casting of the palm of a hand finished in natural colors. One of the most attractive fortune tellers on the market.

For a penny the player receives a print of a palm of a hand with appropriate fortune. There are 24 different readings for men and 24 for women, arranged consecutively. Each time a card is drawn a different palm and fortune is received. The Palmistry machine is equipped with two patented Exhibit slots with all steel card magazine. Natural oak finish. This machine can be bought either with or without the base cabinet. Enough Palm cards are included free with each machine to pay back its cost.

Floor Model with 12,500 free cards \$125.00

Counter Model with 11,000 free cards \$110.00

Reorders of cards \$2.50 per thousand

DIMENSIONS: Height 7 feet; width 29 inches; depth 11 inches; weight 93 pounds.

## CUPID'S POST OFFICE

A CONTINUAL source of innocent and pleasing amusement. The popularity of the Cupid is as old as the song "I Got a Letter From My Love." Whether young or old—men, women and children never pass by without paying Cupid for one of his cleverly written love messages. The machine represents a post office with real letters arranged in the boxes. Cupid sits back of the window ready to hand out a love token to men from one side and to women from the other side. There are 24 assorted love letters for men and 24 for women—arranged consecutively—something different each time. On each letter is a photograph of the sweetheart sender. On the reverse side a printed fortune—a great big penny's worth. This machine is fitted with our famous Exhibit patented sliding slots and with metal card compartments. Cabinet handsomely finished in natural oak. Ornaments brightly colored papier mache and aluminum castings. Machine can be had either with or without the base cabinet. Enough letters are included free with each machine to pay back the cost.

Floor Model with 12,500 free cards \$125.00

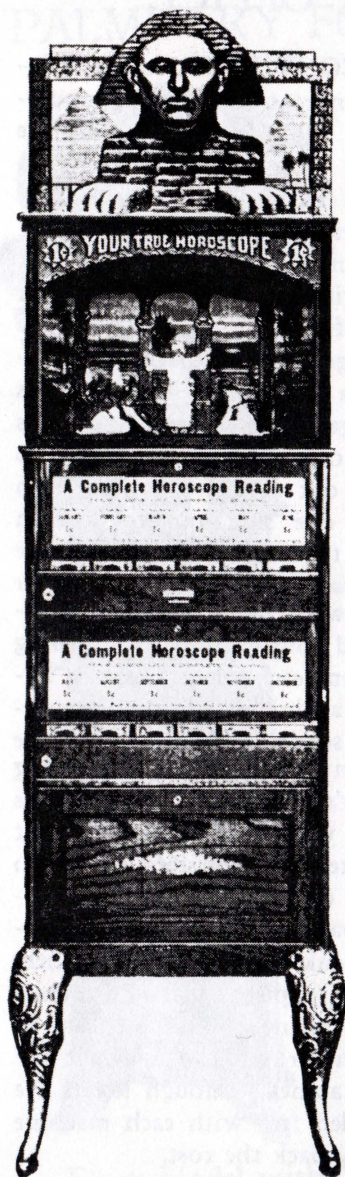

Counter Model with 11,000 free cards \$110.00

Reorders of cards \$2.50 per thousand

DIMENSIONS: Height 7 feet; width 29 inches; depth 11 inches; weight 93 pounds.

## HOROSCOPE MACHINE

A LARGE handsome machine, standing about eight feet high and mounted on four ornamental, nickel-plated legs. The attractive display top portrays an oriental scene with richly-colored mystic figures in the foreground, illuminated with electric light. This machine has twelve slots—one slot for each month in the year. Over each slot is an instruction card giving the month of the year and directions telling the player how to obtain his Horoscope. There are four different, complete and interesting Horoscope readings for each month; one card for each week. Players who want precise readings will draw cards until they get the one covering the week of their date of birth. This results in a greatly increased sale of the cards.

The card compartments are now made of sheet steel and will not get out of adjustment. The cabinet is finished in glossy, natural oak, and there is a large compartment in the lower cabinet for storing stock. A truly handsome, profitable and indispensable machine for arcades and similar locations.

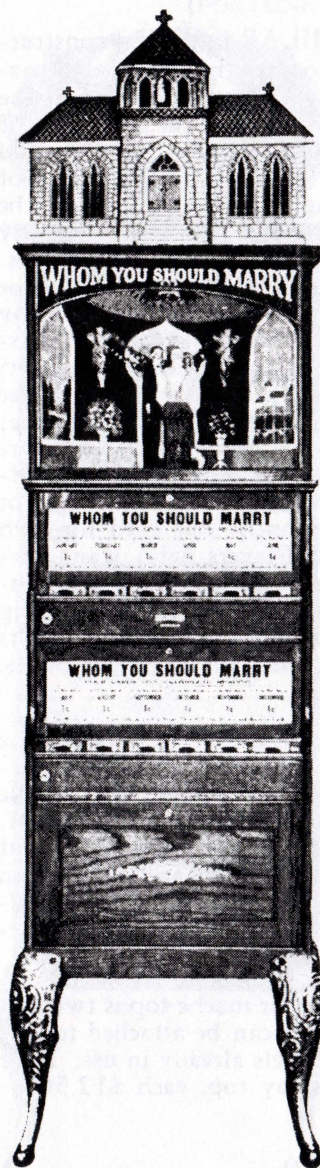

The paper mache display top is two feet high, it can be attached to any old models already in use. Price of display top, each \$12.50.

**Price \$200.00**

Including 20,000 free cards which sell for \$200.00 Reorders of cards cost only \$2.50 per thousand

DIMENSIONS: Height 8 feet; width 25 inches; depth 16 inches; weight 125 pounds.

## WHOM TO MARRY MACHINE

SIMILAR in general construction to the Horoscope and Astrology machines. The display top of the Whom to Marry machine portrays a bewitching picture of interest to every youth and maiden—a magnet that catches the eye and the pennies. It shows the bride and groom being joined in wedlock. An electric light illuminates the scene. Every unmarried person will want a card describing his or her future spouse. There are four different complete and interesting readings for each month; one card for each week. Players who want a precise reading will draw cards until they get the one covering their date of birth. This results in a greatly increased sale of the cards.

The twelve card compartments in this machine are made in our new all-metal construction and are not affected by climatic conditions.

The machine is about eight feet high and finished in glossy, natural oak. Large storage space in base of cabinet. Mounted on four massive, nickel-plated legs. A consistent money getter wherever it has been installed.

The paper mache top is two feet high. It can be attached to any old models already in use. Price of display top, each \$12.50.

**Price \$200.00**

Including 20,000 free cards which sell for \$200.00. Reorders of cards cost only \$2.50 per thousand

DIMENSIONS: Height 8 feet; width 25 inches; depth 16 inches; weight 125 pounds.

## COLOR OF THE HAIR

(FORTUNE TELLING MACHINE)

**T**HIS is a handsome machine. The electric lighted display top always catches the eye, because it is unique and different. There are three girl relief-profiles on each side and each one has a full head of different colored natural hair. In the center is a large sized head of a pretty girl with beautiful, wavy locks. The display top is a work of art. In this machine there are six colors of hair and there is one slot in the machine for each color of hair for both men and women—twelve slots in all.

There are four different card readings from each slot, making a total of 48 different cards in the series—thus greatly increasing the sale of the cards. The card compartments are made of sheet steel and will not get out of adjustment. The compartments are easily loaded from the front. Cabinet is finished in glossy, natural oak with large, nickel-plated legs. The base of the cabinet has storage space with door and lock. Separate cash box.

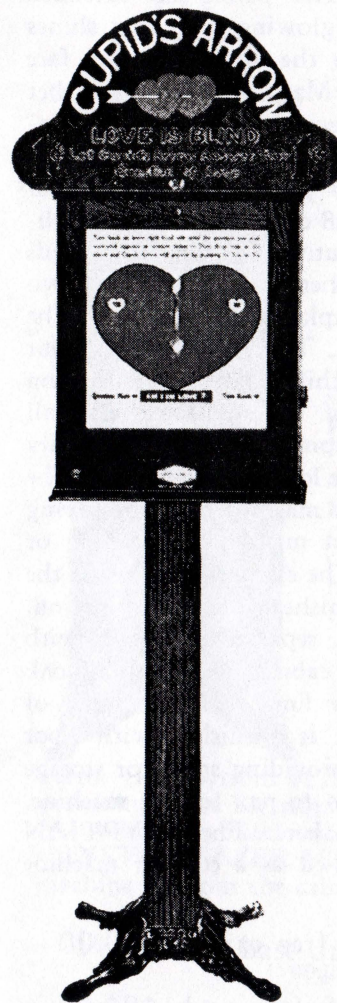

The paper mache display top is two feet high. It can be attached to any old models now in use. Price of display top, each \$12.50.

Price \$200.00

Including 20,000 free cards which sell for \$200.00. Reorders of cards cost only \$2.50 per thousand.  
DIMENSIONS: Height 8 feet; width 25 inches; depth 16 inches; weight 125 pounds.

## CUPID'S ARROW

(TWO MODELS)

**A**N immensely popular and very attractive fortune telling machine. Under the glass there is a handsomely colored sign with large red heart. On top of the cabinet is a big, bright colored display sign. To operate, the player turns the knob on the side to bring the chosen question into the window. He then deposits a penny and Cupid's arrow slowly turns and points to the answer—YES or NO. There are twenty different questions. One model machine has questions relating entirely to love and the other model has questions relating to regular fortunes. Every Penny Arcade should have a pair of these machines. The mechanism is fool-proof and simple. Cabinet finished in natural oak. Machine sold with or without pedestal or with both models on one oak pedestal.

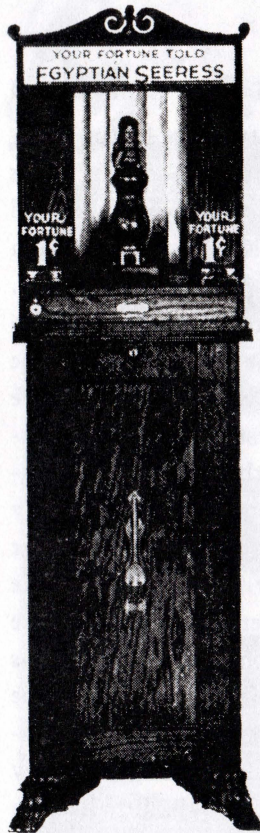

Price with Pedestal \$85.00; without Pedestal \$75.00  
Two Cupid Arrows on One Pedestal \$160.00

DIMENSIONS: Height 6 ft. 4 in.; width 21 in.; depth 9 in.; weight 75 pounds.

## EGYPTIAN SEERESS

### FORTUNE TELLER

THE lovely Seeress stands behind her golden shrine. She reads your thoughts. Her palms are extended over a soft glowing light that shines up through the altar onto her face and arms. Many mirrors reflect her image to fascinated eyes. The Egyptian Seeress machine vends an interesting and pleasing fortune card. There are 48 cards in the series, gathered consecutively and all the cards apply to either men or women. Two people can play this machine at the same time. There are two of our patented Exhibit sliding slots, one on each side of the machine. The all metal card compartments can be easily removed for loading with cards. The front of the machine opens up giving access to the mirrors for cleaning or dusting. The electric light inside the figure furnishes the illumination. There is a separate cash box with lock. The cabinet is of natural oak with glossy finish. The bottom of the cabinet is furnished with door and lock, providing space for storage

of the cards. Enough free cards given to pay for the machine. A big flash and a steady money maker. The EGYPTIAN SEERESS MACHINE can be supplied as a counter machine without the cabinet base.

Price with base and 11,000 free cards \$110.00

Cards sell for \$110.00

Price without base and 9,000 free cards \$90.00

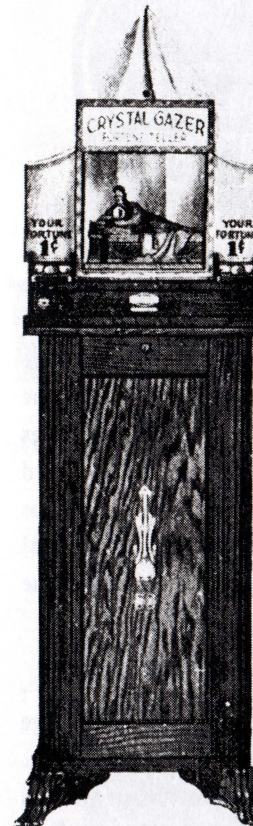

Cards sell for \$90.00

Reorders of cards \$2.50 per thousand.

DIMENSIONS: Height 5 ft. 5 in.; width 20 in.; depth 11 in.; weight 70 lbs.

## CRYSTAL GAZER

### FORTUNE TELLER

A BEAUTIFUL lady of the Orient lying on her luxurious couch in her desert tent, gazes into the crystal and reads your fortune. Through the crystal a bright light shines upon her face and shoulders. The background of mirrors reflects the charming scene from every angle. She gathers in a continuous stream of coins. She gives an attractively written fortune card to each player. A colorful machine, big flash and a consistent profit maker.

There are 48 cards in the series, gathered consecutively and all the cards apply to either men or women, which allows two people to play this machine at the same time. There are two of our patented Exhibit sliding slots, one on each side of the machine. The all metal card compartments can be easily removed for loading with cards. The front of the machine opens up giving access to the mirrors for cleaning or dusting. The electric light inside the figure furnishes the illumination. There is a separate cash box with lock. The cabinet is of natural oak with glossy finish. The bottom of the cabinet is fitted with door and lock, providing space for storage of the cards. Enough stock is given free with each machine to pay back the purchase price. The CRYSTAL GAZER MACHINE can be furnished as a counter machine without the cabinet base.

Price with base and 11,000 free cards \$110.00

Cards sell for \$110.00

Price without base and 9,000 free cards \$90.00

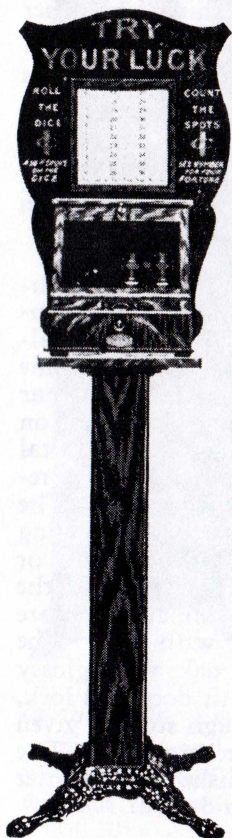

Cards sell for \$90.00

Reorders of cards \$2.50 per thousand.

DIMENSIONS: Height 5 ft. 3 in.; width 20 in.; depth 11 in.; weight 70 lbs.

## ARCADE DICE FORTUNE TELLER

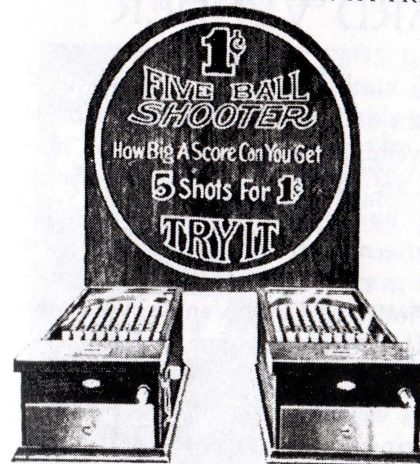

A PROVEN coin getter wherever it has been installed. Dice are one of the most popular ways for telling fortunes. The Arcade Dice Fortune Teller has two cups each holding three dice. When the player deposits a coin and pushes in the slot it starts a clock work which revolves the dice cups one complete turn and throws the dice into the lids of the cups in plain view of the player. The total sum of the spots on the dice indicates the players' fortune on the card above.

The machine is equipped with a large, flashy display sign. There is a large cash compartment with separate lock. Machine is of all metal construction and fitted with our patented Exhibit sliding slot—either 1c or 5c play. The machine is supplied either with or without pedestal.

Price with Pedestal \$100.00; without Pedestal \$90.00

DIMENSIONS: Height 5 feet; width 16 inches; depth 16 inches; weight 50 pounds.

## Two Five Ball Shooters WITH LARGE OAK ATTRACTIVE DISPLAY SIGN

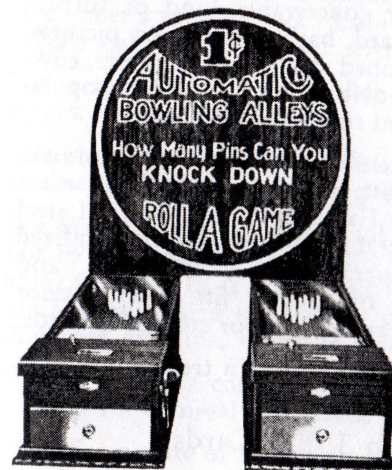

A COMBINATION that draws a crowd and gets a big, steady play. The 5 Ball Shooter is so well known it hardly needs description—it is a great favorite with players everywhere. Here we have two 5 Ball Shooters arranged side by side and connected by an attractive large display sign. This makes a fine flashy outfit for arcades, that will pay for itself over and over again.

Price \$50.00 complete as shown

DIMENSIONS: Height 30 inches; width 20 inches; depth 21 inches; weight 45 lbs.  
For single 5 Ball Shooter see page 71.

## Two Automatic Bowling Alleys WITH LARGE OAK ATTRACTIVE DISPLAY SIGN

BOWLING has become a national pastime. That is the reason the Bowling Alley always gets its share of pennies. As shown in the picture, two Bowling Alleys are joined together with a handsome large display sign which quickly attracts attention and draws the players. Men, women and children compete to see who can knock down the most pins. Every arcade should make space for one of these money getters.

Price \$50.00 complete as shown

DIMENSIONS: Height 30 inches; width 20 inches; depth 21 inches; weight 45 lbs.  
For single Bowling Alley see page 71.

## MODEL D CARD VENDER

THIS machine has long been accepted as the standard of all penny arcade card vending machines. These machines are the back-bone of the penny arcade business and a battery of at least fifteen of these machines should be placed in every permanent arcade. Every Model D Card Vender will take in more money than five ordinary machines. The novelty never wears off because we have fifty different series of cards for these machines and every thirty days we bring out an attractive new series. By simply changing the front sign and putting the new cards in these machines they are kept perpetually up-to-date. Often two series of cards can be run in the same machine, thereby doubling the sales. The extensive variety of cards we carry is of every conceivable kind of fortune telling card, bathing girls, art pictures, autographed movie star portraits, cow-boys, movie production stills, popular jokes and comics of all kinds.

The machine is finished in natural oak, fitted with two of our patented non-rustable Exhibit sliding slots, all steel non-rustable card magazine, oxidized legs, separate money box lock, and bottom of cabinet fitted with door which can be used for storage of cards.

Machine is practically trouble proof and gets a tremendous play from men, women and children alike.

Price \$60.00 with 1,000 Cards

FOR PERMANENT LOCATIONS

■ SPECIAL NOTICE: Where extra special display is desired we supply our electric top attachment for Model D machines, consisting of two side wings 6"x24" and a top box 18" high by 30" wide equipped with two electric lights and we furnish transparent sign.

■ See Picture of battery of these Machines on pages 55 to 57.

DIMENSIONS: Height 6 feet; width 20 inches; depth 11 inches; weight 75 pounds.

## MODEL E CARD VENDER

THIS is a standard machine for portable arcades made with quickly detachable top frame, especially for carnivals. Its light weight and small space required for packing make it particularly well adapted for wagon storage. Many carnival arcade men will recommend these model E's as being the fastest money getters and the least trouble of any machines on their show. Every carnival arcade should carry at least sixteen of these machines, but some carnivals have as many as twenty-four. We believe, however, owing to the small wagon packing space, that by allowing us to make special signs displaying two different kinds of cards for each machine that all the cards necessary to be carried can be put into a battery of sixteen Model E's.

Like the Model D on the opposite page, this machine is fitted with two of our non-rustable, patented Exhibit sliding slots. The card magazines are made of non-rustable steel. Wet weather does not affect these magazines. There is a separate money box under a tumbler lock. Cabinet made of heavy, natural finish golden oak, double coated with spar varnish.

No carnival arcade is complete without a battery of these machines.

The same big variety of cards can be supplied for the Model E as described on the opposite page.

We manufacture a small metal card machine 9" wide. We do not recommend the use of this machine for carnivals and portable arcades. It is too small. There is no flash. And this machine will earn only about one-tenth as much as the above described machine, which is made especially for carnival use.

We are the only company who manufacture postcard machines suitable for carnival and arcade use.

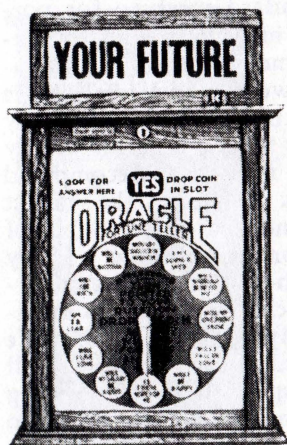

See picture of battery of these machines on pages 52 to 54.

Price \$40.00, with 1,000 cards

DIMENSIONS: Width 18 in.; depth 11 in.; body of machine 17 in. high, detachable display sign on top 13 in. high, making a total height when set up of 30 in. Weight 26 lbs.

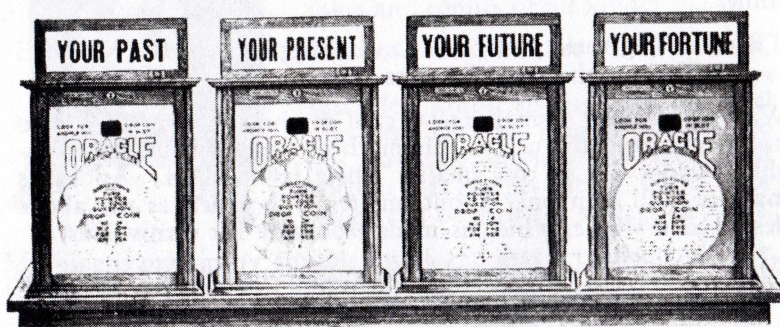

## ORACLE FORTUNE TELLERS

THE Oracle is the greatest little fortune teller machine ever made—a special feature is its winning appearance—bright colored appealing signs and natural finished oak cabinet. The Oracle answers all sorts of comic and serious questions, as shown on the dial. The player simply sets the pointer to the question he wants answered and deposits his penny—the answer Yes or No immediately appears in the window. The mechanism has only three working parts and is mounted on

the inside of the door—easy to get at. The coin runway is made of metal. The glass on the door is heavy plate. The pointer is fastened to the inside mechanism and not to the glass. There are four different colored display fronts—Your Fortune; Your Past; Your Present and Your Future. A battery of four Oracles arranged side by side make a very attractive fortune outfit that will get thousands of pennies. No arcade is complete without a battery of four different Oracles as shown on bottom of this page.

Above cut shows 4 machines on counter; we also can mount two machines on wooden pedestal shown on page 77. Price of pedestal \$10.00.

Price, each \$25.00. Battery of 4 machines \$100.00

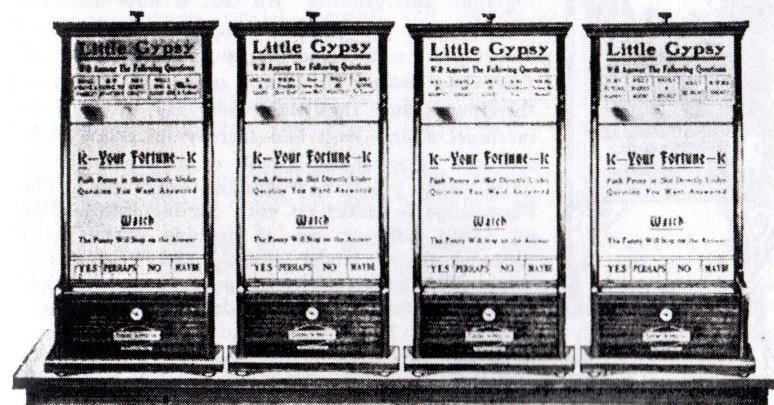

DIMENSIONS: Height 17 inches; width 14 inches; depth 5½ inches; weight 11 lbs.

## GYPSY FORTUNE TELLERS

THE Gypsy is one of the smallest and simplest fortune tellers made. Just put in your penny and the Gypsy will answer your question. No complicated parts, it is never out of order. The player chooses a question to be answered, then drops a penny in the slot under the question. Pressing the button on top releases the penny which bounces down over the pins and stops on the answer. Roomy cash box with lock. The Gypsy is always on the job. It is an ingenious little device that appeals to everybody who enjoy having their fortunes told.

There are four different Gypsy machines—Past Gypsy; Present Gypsy; Future Gypsy and Your Fortune. A battery of our Gypsy machines makes an attractive and inexpensive fortune telling combination that gets a steady play. A battery of 4 Gypsies should be installed in every Arcade. Owing to its convenient size and its trouble proof mechanism it is a practical machine for operating in stores on a percentage basis.

Above cut shows 4 Gypsies on counter. We can mount all 4 Gypsies on one wood Pedestal as shown on page 77 for an additional \$10.00.

Price, each \$20.00. Battery of 4 machines \$80.00

DIMENSIONS: Height 17 inches; width 8 inches; depth 5 inches; weight 6 lbs.

## FLOOR MODEL PHOTOSCOPE

STEREOSCOPIC DROP PICTURE MACHINE FOR PENNY ARCADES

THE finest and best drop picture machine ever manufactured. Has many new and desirable features. Now equipped with electric motor transmission and automatic mercury electric switch. (No winding motors on this machine.) When a coin is deposited the machine will show just one set of the five sets of pictures in the machine and stop exactly on the title card. It takes five coins to see all the pictures in this machine. Other makes of picture machines only get 1c, as they have only one set of pictures in the machine. This makes the Photoscope five machines in one. This also means economy in floor space and in your investment, because the Photoscope takes up less floor space and you need to buy only one of these machines to equal the earning capacity of five machines of any other make.

Other new features are the slug-proof sliding slot and the Exhibit patented sign frame holding five signs—one sign for each set of pictures, and with appropriate hand water colored 8x10 genuine photographic enlargements. All that is now necessary is to remove the sign from the back of the frame and slip it to the front in back of the glass. It takes one second to change sign and you can, therefore, change these signs every day, giving your machines a new flash and thereby increasing their earnings. The cabinet is built of solid oak natural finish with polished aluminum ornaments. The Photoscope is backed up with our big Exhibit line of 2,000 different sets of genuine photo stereo views, both art model, comedy and western pictures. The Exhibit Photoscope is the most ornamental and finest mechanical drop picture machine ever built.

Send for special descriptive circular.

Price \$125.00

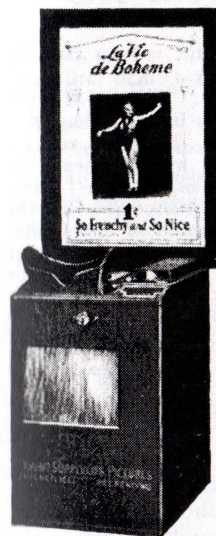

Complete with 5 sets of pictures and 5 display signs.

Send for special circular listing our extensive line of pictures for this machine.

DIMENSIONS: Height, 6 ft.; width, 15½ in.; depth, 14 in.; weight 70 pounds.

## Photoscope Picture Machine

(PORTABLE MODEL, made especially for Carnivals)

OUR iron Photoscope is the finest little machine of its kind ever made. It is the last word in picture machines for portable shows and is highly recommended by all traveling arcades. It is an all iron machine. It is compact, efficient, mechanically perfect and has a large 15"x22" attractively colored display sign with either one or five photographs on it. There are no levers to pull or cranks to wind. The machine is automatic. The Carnival or Portable Model Photoscope is regularly equipped with 110-V electric lamp which lights up only when the machine is running. A socket is provided in the back of the cabinet to connect to outside current. It holds five sets of genuine photograph stereoscopic views, which gives it five times the earning power of other machines that hold only one set of pictures. It is equipped with our patented Exhibit non-rustable, sliding slot. It is run with a strong spring motor which will operate the machine nearly 200 times with one winding. Fitted with cash box under separate lock. Large rubber feet on bottom, and bot-

tom of the cabinet is bored to fasten on counter is desired. Most carnivals put these machines in between two cleats on top of table. Five of these machines will pack in the same amount of wagon space as any one old counter model stereoscopic machine, and twelve Photoscopes will go in the same wagon space as one floor model old design picture machine.

We manufacture a very extensive line of stereoscopic pictures for these machines, art pictures, special comedies and western stories made purposely for us in our Hollywood studio by such noted moving picture artists as Ben Turpin, Clyde Cook, Billy Dooley, Jack Duffy, Bobby Vernon, Wally Wales, Buddy Roosevelt, Art Acord, Jack Padjan, Buffalo Bill, Jr., Roy Stewart, etc., etc. Over two thousand sets to choose from—we can furnish nearly any combination of pictures you desire. All pictures are passed by the New York censor.

The Photoscope is fully covered by patents. There is no other machine like it on the market. It is the best picture machine for carnivals to be had at any price.

Carnivals still carrying the old model wooden cabinets holding one set of views would do well to dispose of them and install Photoscopes in their place, because you can handle five times as many picture machines with the same weight and wagon displacement by using Photoscopes. The more slots you have for the public to drop their coins in the more money your arcade will earn. "Photoscope" your carnival arcade and bring it up-to-date. A lineup of Carnival Photoscopes are shown on pages 52 to 54.

Price \$45.00

Complete with 5 sets of pictures, electric light, and our patented sign frame holding 5 flashy, hand painted display signs, size 15 in. by 22 in.

DIMENSIONS: Height of machine 15 in.; height of sign 22 in.; making total of 37 in.; width of machine 8¾ in.; width of sign 15 in.; depth 11 in.; weight 20 lbs.

## RADIO LOVE MESSAGE MACHINE

Two Machines on Heavy Oak Pedestal

THIS little machine is in a class by itself. It vends a small card bearing a love message. A pair of these machines should be used, thereby giving you four slots. Each slot vends a different card—for married men—for married women; single men—single women. On the reverse side of the card is printed a photo of the sender. This is a standard model very popular with the public. No arcade should be without a pair of them. Carnivals should order without the pedestal.

Price two machines with pedestal \$60.00

Price two machines without pedestal \$50.00

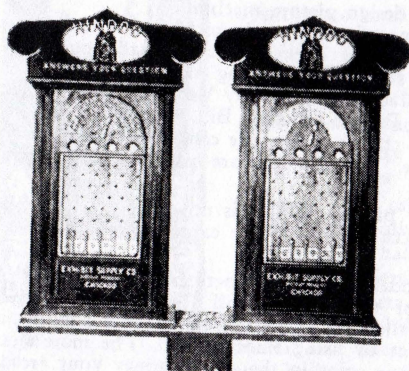

Including 5,000 cards which sell for \$50.00

Reorders of cards cost \$2.00 per 1,000.

DIMENSIONS: Height 20 inches; width 12 inches; depth 9 inches; weight 10 lbs.  
Height of pedestal 36 inches.

## HINDOO FORTUNE TELLER

Two Machines on Heavy Oak Pedestal

THIS is a distinct novelty in the fortune telling line. There are four questions at the top of the machine. There are six answers for each question. As the pointer is turned to the question the different answers at the bottom automatically come into view. To operate, the player will put his penny in the slot according to the month of the year in which he was born. The penny will zig-zag down over the pegs and stop in place on any one of the six answers. There are two machines each with a different series of questions.

A pair of these machines on pedestal should be in every arcade, and every carnival arcade should carry two of them without the pedestal.

Price two machines with pedestal \$80.00

Price two machines without pedestal \$70.00

DIMENSIONS: Height 27 inches; width 15 inches; depth 6 inches, weight 13 pounds.  
Height of pedestal 36 inches.

## There Can Be No Compromise With Safety! Get the Exhibit Guarantee Behind Your Machines

THE six Penny Arcade cuts shown on following pages are all pictures of well-balanced arcades. The different combinations of machines shown in these cuts were made to give the prospective buyer some idea of the number and kind of machines that will fill a certain floor space for a certain price, and to show what the different priced penny arcades will look like set up on the floor. We can furnish an arcade to fit any space or any pocketbook. A successful penny arcade must have the largest possible variety of machines—the larger the variety the more money it will earn—Exhibit makes a variety of machines three times greater than all other manufacturers combined and are the only people in the business who can equip a complete penny arcade.

Every machine listed in these equipments is a genuine arcade amusement machine. Please note that we have not included any small operator's machines such as Peanut, Pellet Breath Perfume or Match Vending Machines, etc.

The Model E Card Venders listed in the first three equipments are made especially for portable arcades. They are large machines, 18x36 inches with detachable flashy display signs, and cost \$40.00 each. We also manufacture a smaller model card vending machine for operators, priced at \$15.00 (see page 64), but we do not recommend this machine for arcade use. We are the only people who make the proper size card vending machine for arcades, carnivals and parks. The cards given with each equipment are the highest grade in quality and workmanship and of the latest releases. We are continually bringing out new series of cards and keep the fortune cards worked over and brought up to date every year.

A word of caution to the prospective buyer of an arcade is here apropos: Beware of the secondhand machines advertised for sale. If any machine can be made to work satisfactorily its owner will not sell it, because he can take in more pennies with it in thirty days than he can get out of the sale of it.

The manufacturers of most of the used machines offered for sale have gone out of business. It is impossible to get parts, and to make repairs will often cost more than the price of a new guaranteed machine. Secondhand machines are a risk at any price, and the saving does not warrant anyone in buying them. Quality is remembered long after price is forgotten.

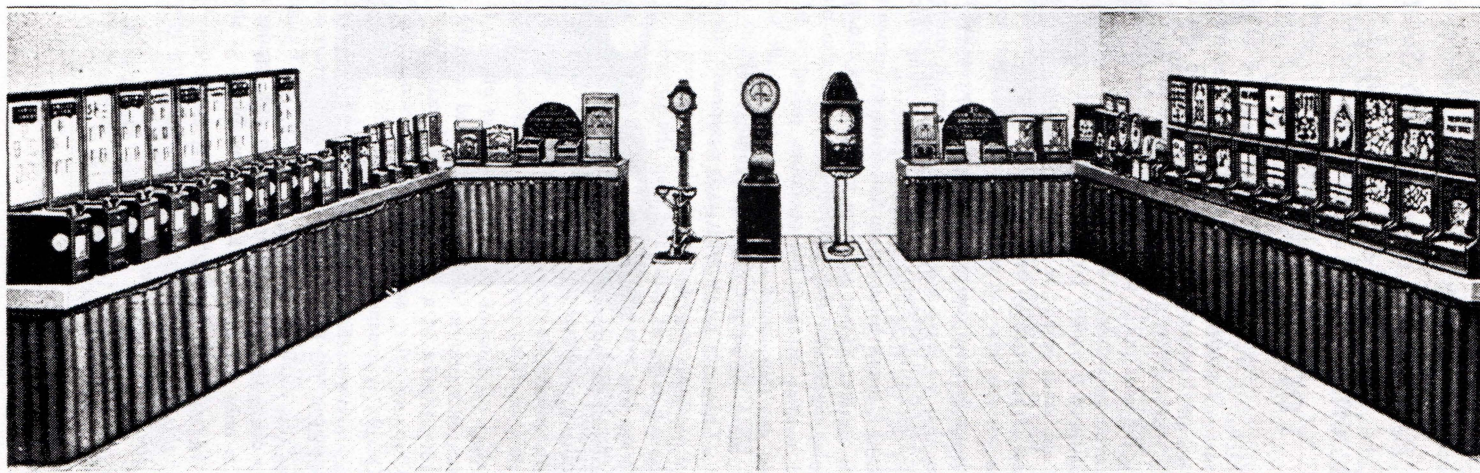

"Exhibit" machines are efficient, dependable and all latest improved models—GUARANTEED TO BE RIGHT. We manufacture every machine shown and listed in this catalogue in our own factory. Exhibit machines can be bought only direct from factory or through our regularly appointed distributors—there is only one price on Exhibit machines, as shown in this catalogue.

*The success of this company is not an accident, but the inevitable result of giving more of the best for the least.*

J. FRANK MEYER, President.

# No Carnival or Park is Complete Without a Penny Arcade

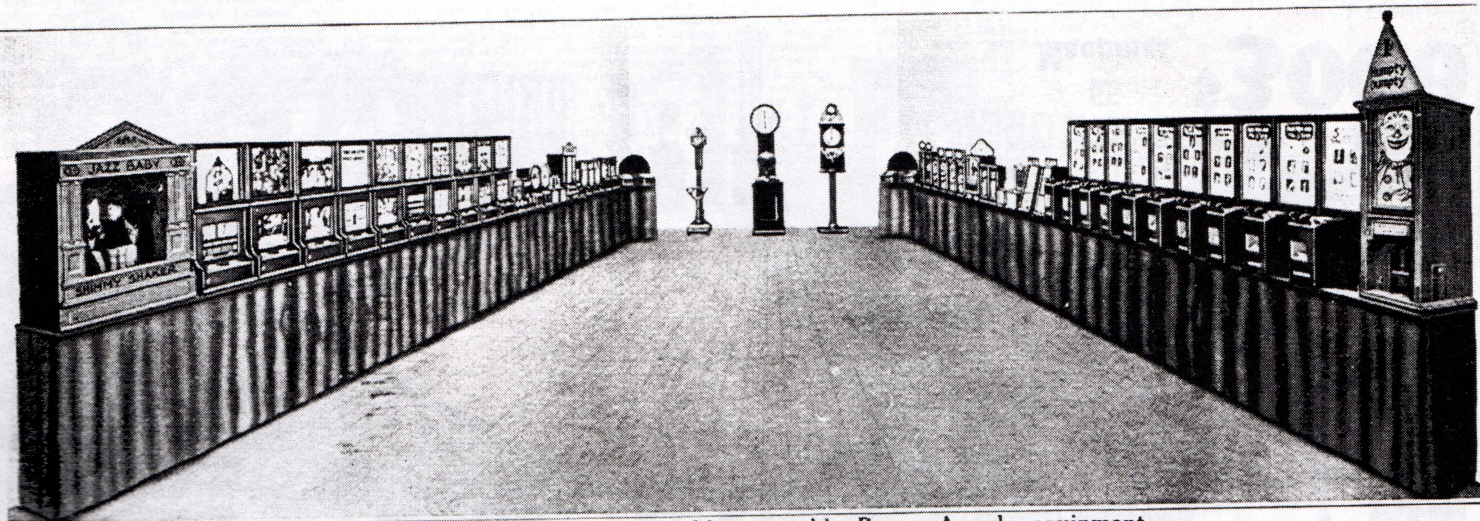

Above Cut shows our 47 machine portable Penny Arcade equipment. This is the most popular outfit for Gilly Shows.

8 Photoscopes, latest automatic all iron picture machines, equipped with electric light attachment, with 15x22 attractive display signs, 5 signs and 5 sets of pictures with each machine; 10 Model E Card Venders, size 18x36, with all steel mechanism, equipped with flashy colored signs displaying latest releases of cards, together with 10,000 cards; 1 Aluminum Play Ball Machine; 2 Penny Back Lucky Horseshoe Fortune Tellers; 2 Oracles, Yes and No Fortune Tellers (1 Future, 1 Present); 2 Radio Love Message Machines, including 4,000 cards; 4 Little Gypsy Fortune Tellers (1 of each kind); 1 Fortune Teller Ball Gum (for boys); 2 Junior Dice Machines; 2 Kromo Koloed Kubes; 2 Bowling Alleys with special flashy display sign; 2 Five Ball Shooters with flashy display sign; 1 Sambo Fortune Teller; 1 Smiling Joe Penny Back Ball Gum Machine; 1 Electric Shock Machine; 1 Batter-Up Baseball Machine; 1 5c Nickel Novelty Machine with 500 Cards; 1 5c Burlesque Beauties Machine with 500 cards; 1 Champion Muscle Tester Punch Bag; 1 Striking Clock Athletic Machine; 1 Combination Lifter and Gripper Athletic Machine. Minimum floor space 15 feet wide by 15 feet deep, maximum space 20 feet wide by 20 feet deep lined up as per above photograph. Net weight, 1,400 lbs.

**47 Machines \$1700**

## Small Carrying Space—Light Weight—One Man Payroll

Above cut shows our 55 machine portable Penny Arcade equipment.

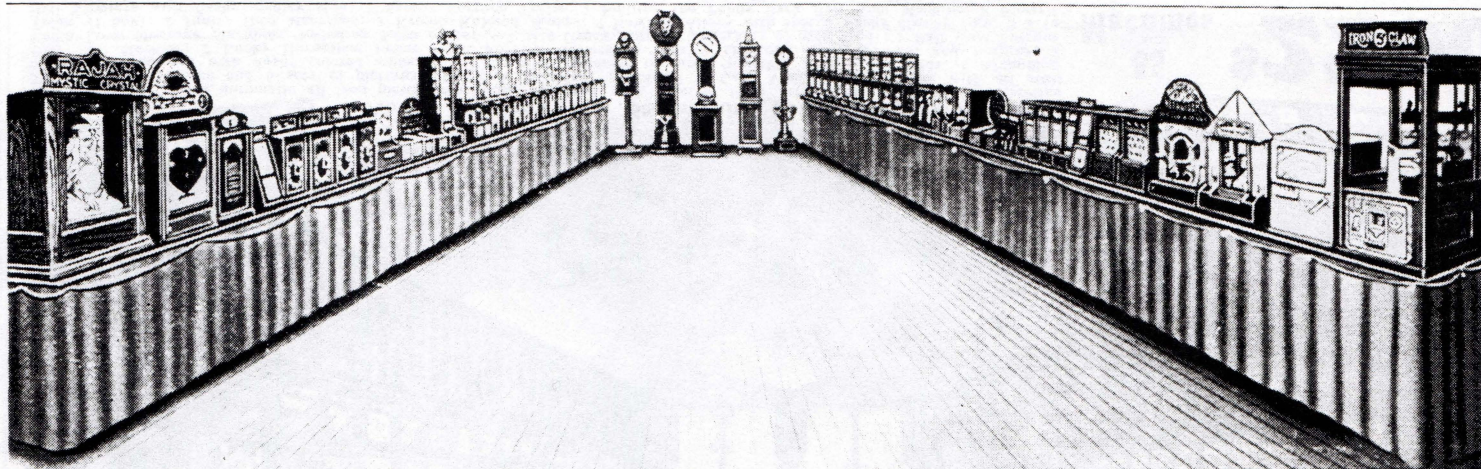

10 Photoscopes, latest automatic all iron picture machines, equipped with electric light attachment, with 15x22 attractive display signs, 5 signs and 5 sets of pictures with each machine; 10 Model E Card Venders, size 18x36, with all steel mechanism, equipped with flashy colored signs displaying latest releases of cards, together with 10,000 cards; 1 Aluminum Play Ball Machine; 2 Lucky Horseshoe Penny Back Fortune Tellers; 4 Oracles (Fortune, Past, Present and Future); 2 Radio Love Message Machines, including 5,000 cards; 4 Little Gypsy Fortune Tellers (1 of each kind); 1 Ball Gum Fortune Teller (1 boy); 2 Junior Dice Machines; 2 Kromo Koloed Kubes; 2 Bowling Alleys with special flashy display sign; 2 Five Ball Shooters with flashy display sign; 1 Sambo Fortune Teller; 1 Smiling Joe Penny Back Ball Gum Machine; 2 Electric Shock Machines; 1 Counter Humpty Dumpty Amusement Machine; 1 Counter Jazz Baby Shimmy Shaker Machine; 1 Champion Muscle Developer Punching Bag; 1 Striking Clock Athletic Squeezer; 1 Combination Gripper and Lifter Machine; 1 5c Nickel Novelty Machine with 500 cards; 1 5c Burlesque Beauties Machine with 500 cards; 1 Counter Crystal Gazer Fortune Teller, 9,000 cards; 1 Batter-Up Baseball Machine. Minimum floor space 16 feet wide by 40 feet deep; Maximum space 20 feet wide by 50 feet deep, lined up as per above photograph. Net weight, 1,750 lbs.

**55 Machines \$2200**

In addition to the above we recommend one Counter Model 5c Iron Claw Machine \$225.00; also if you have room to carry add 1 High Striker Athletic Machine, \$200.00 and one Tiger's Tail Puller Athletic machine, \$175.00.

## The Hit of the Midway—Rain or Shine

Above cut shows our 65 machine portable Penny Arcade equipment. The very best and finest equipment for Carnivals.

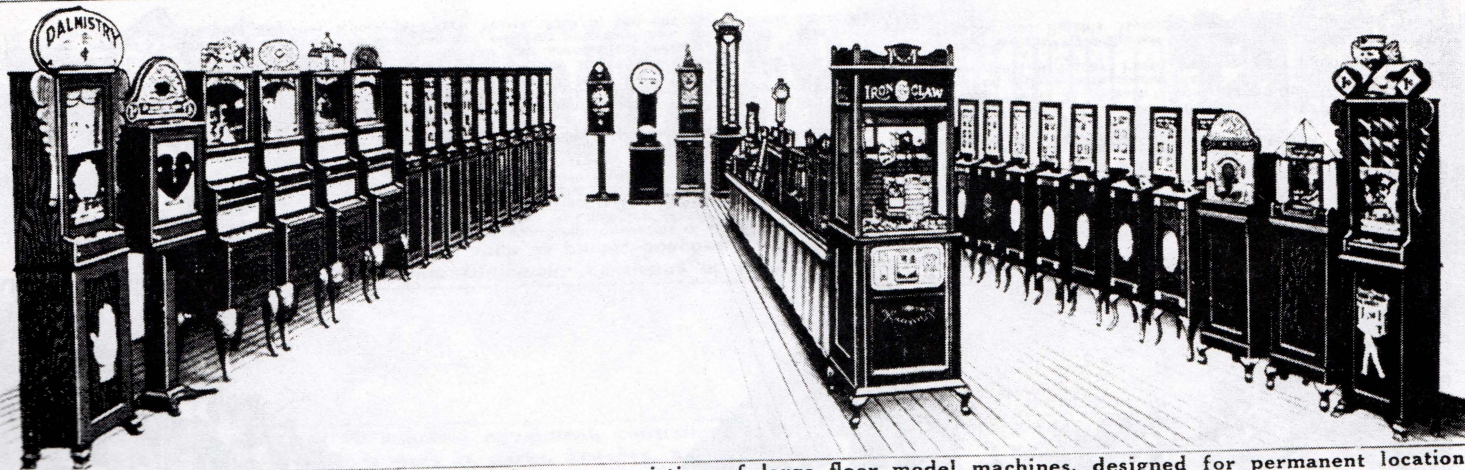

10 Photoscopes, latest automatic all iron picture machines equipped with electric light attachment, with 15x22 attractive display signs, 5 signs and 5 sets of pictures with each machine; 10 Model E Card Venders, size 18x36, with latest all steel mechanism, equipped with flashy colored signs displaying latest releases of cards, together with 10,000 cards; 2 Aluminum Play Ball Machines; 2 Penny Back Lucky Horseshoe Fortune Tellers; 4 Oracles (Fortune, Past, Present and Future); 2 Radio Love Message Machines, including 5,000 cards; 4 Little Gypsy Fortune Tellers (1 of each kind); 2 Ball Gum Fortune Tellers (1 boy, 1 girl); 2 Hindoo Fortune Tellers; 2 Junior Dice Machines; 2 Kromo Kolorod Kubes; 2 Bowling Alleys with special flashy sign; 2 Five Ball Shooters with flashy display sign; 1 Sambo Fortune Teller; 1 Smiling Joe Penny Back Ball Gum Machine; 2 Electric Shock Machines; 1 Counter Cupid's Arrow; 1 Counter Crystal Gazer with 9,000 cards; 1 Counter Rajah Mystic Crystal Electric Fortune Teller; 1 Counter Electric Vitalizer; 1 Champion Muscle Developer Punching Bag; 1 Striking Clock Athletic Squeezer; 1 Combination Gripper and Litter; 1 Humpty Dumpty Amusement Machine; 1 Jackass Litter; 1 Batter-Up Baseball Machine; 3 Metal 5c Card Venders with 1,500 5c cards; 1 Counter Iron Claw 5c play; 1 Golden Bell. Floor space for this equipment 16x50 feet, laid out as per above photograph. Net weight, 1,950 lbs. By using two rows of machines down center of floor on tables back to back they can be placed in a space 20x25 feet. Most carnival arcades house their equipment under a 25x45 top, which is large enough to hold 125 machines with cashier's stand and top.

65  
Machines

\$3000

We recommend this portable arcade equipment for carnivals. These 65 machines will pack comfortably in a 16 foot wagon. If an 18 foot wagon is used, we recommend that you add the following 4 machines, or as many as desired, in the order listed: High Striker Athletic, \$200.00; Pull the Tiger's Tail Athletic, \$175.00; Hercules Gripper, \$175.00; Grandfather's Clock, \$175.00; Counter Model Jazz Baby, \$110.00.

## A Class "A" Attraction—Efficient—Always Ready

Above photograph shows our 65 machine equipment, consisting of large floor model machines, designed for permanent locations such as parks, beaches, and penny arcades.

Above photograph shows our small size 65 machine standard equipment, consisting of large floor model machines, designed for permanent locations such as Parks, Beaches and Penny Arcades. 1 Champion Muscle Developer Punching Bag; 1 Striking Clock Athletic Squeezer; 1 Combination Gripper and Litter; 1 Humpty Dumpty Amusement Machine; 1 High Striker; 1 Cupid's Postoffice Machine with 12,500 cards; 1 Electric Vitalizer; 1 Crystal Gazer with 11,000 cards; 6 Floor Model Photo- scope Electric Machines with 5 sets of pictures in each machine; 1 Palmistry Machine with 12,000 cards; 1 Cupid's Arrow on Pedestal; 1 12-Slot Horoscope with 20,000 cards; 1 12-Slot Whom to Marry with 20,000 cards; 1 12-Slot Eye Fortune Machine with 12,000 cards; 1 12-Slot Hair Fortune Machine with 12,000 cards; 10 Model D Card Venders, with latest steel mechanism, equipped with flashy signs and including 10,000 cards from latest releases. 1 Iron Claw, 2 Aluminum Play Ball Machine; 2 Lucky Horseshoe Penny Back Fortune Tellers; 4 Oracles (Fortune, Past, Present and Future); 2 Radio Love Mes-sage Machines with 5,000 cards; 4 Little Gypsy Fortune Tellers (1 of each kind); 2 Ball Gum Fortune Tellers (1 boy and 1 girl); 2 Hindoo Tellers (one of each kind); 2 Penny Back Ball Gum Machine; 2 Electric Shock Machines; 1 Batter-Up Baseball Machine; 1 Golden Bell Penny Back Skill Game; 1 5c Metal Card Vender with 500 5c cards; 1 Egyptian Seerss with 11,000 cards. # Every Lot a "Red Spot" With Our Exhibit IRON CLAW CONCESSION

Above is an actual photograph of an EXHIBIT 1931 IRON CLAW CONCESSION. It consists of seven of our New Improved Carnival Model Iron Claws, complete with back door for servicing and with our individual hinged packing boxes. You can order more or less machines to fit the space you have available. Allow two feet for each machine.

*There is no substitute for Exhibit Iron Claws*

A BIG FLASH

A PROVEN WINNER

See page 9 for a more detailed description of this machine.

IT'S NEW

THE EXHIBIT SUPPLY COMPANY

4222-24-26-28-30 WEST LAKE STREET, CHICAGO

## It's New — A Winner — It's Hot

*Clean up with the Exhibit Iron Claw. The liveliest new concession for Carnivals, Amusement Parks, Piers and Beaches. A Big Flash, small installation cost, light weight, packs into small carrying space.*

### Small Investment—Large Quick and Sure Money Maker

#### HOW IT OPERATES

**T**HE Exhibit Iron Claw is an automatic electrically driven vending machine. It gets a nickel every 10 seconds.

Various kinds of hard, small candies costing about 15c per pound are placed in the magazine of the machine. Candies and a few good favors costing from 5c to 10c are mixed with novelty or slum jewelry costing about \$5.00 per thousand. This is all placed in the magazine and feeds automatically. The machine pays out about 20% in prizes. The only attention the Iron Claw needs is for refilling the magazine. Iron Claw concessions are being operated both with and without attendants.

The person playing the machine first picks out the favor he wants; then the handle is turned to show approximately where the claw will drop. He then puts a nickel in the slot; the claw automatically turns to the position, drops down, grabs a few pieces of candy, and sometimes a favor. The claw then raises and automatically dumps the contents into a chute from where it is delivered to the player. This operation takes only 10 seconds.

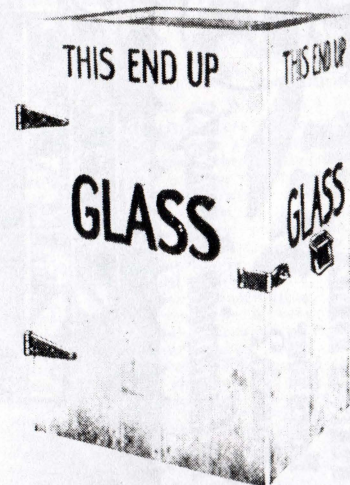

There is an automatic counter on every machine registering every play. It is not a toy, but a real machine made on scientific principles and of the best material. It does not stop in it is directed to stop—this is what makes the Claw a real 100% skill device and legal. It is ten times as fast as any similar machine made. The Claw is not an imitation but the real original machine. Equipped with 110-volt Universal Motor, large cash box, Yale lock, golden oak cabinet. Each machine is 2 feet wide. Figure your available space, and order enough machines to fill.

The Exhibit Iron Claw is all business; it is trouble proof and fool proof. A player can not jim it nor stall it. Its earning capacity is 30c per minute. Weekly gross receipts per machine are from \$50 to \$150. It has been on the market five years, and has proven itself efficient and dependable. It is guaranteed. It appeals to everybody.

#### FOR CARNIVALS

Every machine is shipped in a strong wooden case, like above at side, reinforced and lined with carpet. Case has hinged door with padlock hasp, and strong handles on sides. Cases are correct height to be used for tables in framing a concession. One case given free with every machine.

Write for Iron Claw Concession Circular giving full information.

Height 42 in.; 2 ft. sq.; Weight 90 lbs.  
Iron Claw and Box, Weight 165 lbs.

## HIT-TO-WIN

*A New Carnival Concession Machine*

IT'S NEW!

IT'S 100% GAME OF SKILL!

IT'S A "FAST TAKER" AND A BIG REPEATER!

IT'S A SURE WINNER!

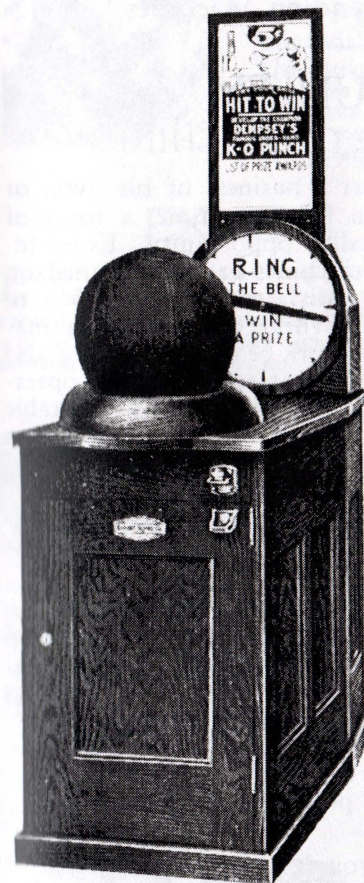

This Concession is destined to be the sensation of the Midway. It has a powerful human appeal. It has every necessary qualification for a successful concession. It pulls the strings of the public purse as no other concession has done before. It makes a "Knockout" of a frameup and is a real "red hot" money getter.

## HIT-TO-WIN PUNCHING BAG

Operated as a concession it is easy to handle, quick to set up and pull down—every bag has its own carrying crate with hinges, hasps and carpet lined. It is in every way the ideal road concession, and its earning capacity is 30c per minute. Machines can be operated on the percentage basis after the season closes, thereby earning a revenue throughout the winter.

THE Exhibit Hit to Win Punching Bag is made for the public to test its skill and to win prizes on the exact strength of their punch—the harder the bag is hit the more it will register—Feather Weight Punch wins 10c; Lightweight Punch wins 20c; Welterweight Punch wins 35c; and Heavyweight Punch wins 50c. When bag is hit so that register dial stops exactly on any one of the above four winning points a bell rings and pointer will remain on the winning point until bag is operated again, thereby giving attendant time to check up. Prizes are paid in merchandise or merchandise coupons. The Hit to Win Bag is set to pay off approximately 35%. It is

fool proof and built to withstand hard usage. Built with the best material and workmanship money can buy and the cabinets are golden finish oak. It plays for a nickel a punch—all pennies and slugs are automatically thrown out of slot. It is the lightest weight and smallest size punching bag ever built. Top signs showing prize awards on top of machine are all removable. Every machine comes packed in carnival shipping case with hinges, hasps and handles. A register on every machine shows exactly how many times bag is operated, which assures an accurate check-up on each day's receipts. Size: Height, 45 in.; with top frame removed; width, 19 in.; depth, 43 in.; weight, 180 lbs. Weight with carrying case 285 lbs. In framing a concession of Hit to Win bags allow a minimum of three feet for each bag. Player deposits nickel in slot, pulls up bag to its striking position, then strikes it. The force of the blow will be registered by the pointer on the dial showing whether bag was hit too hard or not hard enough to make the pointer stop on one of the four winning points—the bag immediately after being struck returns inside its collar and is locked there until released by another nickel. It is a very fascinating game—looks easy—but really is a very difficult thing to measure the strength of the blow to make hand stop exactly on a winning point to ring the bell. The reward card in frame tells plainly the amounts paid. Prizes are paid in merchandise or merchandise coupons. A good display of flashy prizes and a few Hit to Win Punching Bags will clean up the midway on every lot this season. Women and children can win prizes on these bags as well as the men folks, as bag pays prizes on both featherweight and lightweight blows. Remember it's not how hard the bag is struck that wins, but how accurately blows are struck.

Price \$225.00

DIMENSIONS: Height, 45 in.; height with detachable top sign on the machine is 64 in.; width, 19 in.; depth, 43 in.; net weight 180 lbs.; weight with shipping crate, 285 lbs.

 Skill, Chance and Vending Machines

**OPPORTUNITY**  
 OWNING A ROUTE OF MACHINES

TO the man who desires to start a business of his own, or who wants to make money in his spare time, a route of Exhibit machines offers an unequalled opportunity. Every locality has scores of spots where machines can be installed on the percentage plan. It is usually satisfactory to give 25% to the proprietor in return for the privilege of placing the machine. The merchant has no extra work or expense and he also benefits by increased sales. The success of an investor or operator of machines depends largely upon his choice of suitable machines. The Exhibit line of small, attractive machines shown in the following pages, are recognized by operators as the best penny getters made. Any operator's machine to be profitable must be a repeater. The Exhibit machines are noted for the way they appeal to the players all the year round—the interest does not wear off.

In the long run the operators who handle legitimate penny machines are the ones who win out. Chance machines are "up today and down tomorrow." The two outstanding penny machines that combine the "legitimate" and "repeater" features are the Exhibit Ideal Card Vender and the Exhibit Photoscope. Thousands of these fine little machines are being operated successfully—more and more men are daily starting routes of Ideals and Photoscopes. They lead the penny machine field and are in a class by themselves.

There is a big opportunity for you in the operating business right in your own locality. Experience is not essential. You can start with a small capital and grow big. Finding locations is easy. The machines do the work—you collect the money. We co-operate with you to make your route a success. Start today! Put out a few machines and grow with the profits.

## EXHIBIT COUPON PLAN

"Operators Who Play with EXHIBIT  
 Profit with EXHIBIT"

OWNERS of Exhibit card venders are tripling their card sales by participating in our free premium plan. All of our different series of operators' cards now have a coupon printed in the corner (see illustration at the left). Buyers of cards save and redeem these coupons for the attractive gifts which we supply absolutely free, without any cost to the operator.

This attractive Coupon Plan, combined with the new series of cards we publish periodically, keeps up a continual interest in the Ideal Card Vender—it is the big reason why Ideal Card Venders are the fastest legitimate penny getters made.

## EXHIBIT PREMIUMS

EXHIBIT Premiums are original and designed to appeal to kiddies everywhere. New premiums are being released regularly, which can be redeemed for from fifty coupons and upwards. Window advertising cards, as well as up to date display signs for Ideals, are furnished free to Exhibit operators as often as required.

## IDEAL CARD VENDER

THIS new model is now being constructed from much heavier sheet metal—the Ideal is built to last a life time. There are no wood parts to shrink or swell. All exposed corners are rounded and the cabinet is securely put together with the new spot welding process. The finish is in attractive dark green crystal enamel. Two of our new, non-rustable, improved, patented Exhibit sliding slots are fitted to each Ideal card vender. These slots are removable from the machine and the 1c and 5c slots are interchangeable. The Ideal Card Vender is the best legitimate penny vender on the market for operators. We back up this new machine with a wonderful, exclusive line of postcards, of which we publish one or more new series every sixty days. Send for our Ideal circular and our postcard circular. Our Ideal card vender is the original, perfect card vending machine, fully covered by U. S. patents,

comprising every necessary feature an efficient card vender must have. No other satisfactory machine can be made without infringement. The Ideal is the original—all others are imitations. Price \$15.00 including 1,500 free cards which will sell for \$15.00. Reorders of cards cost \$3.60 per 1000.

### REAR VIEW

*Demonstrating the Accessibility of the Ideal*

AN experienced operator can refill the card compartments and empty the cash in one minute. Both the back door and the inside cash box door are equipped with high grade locks. The cash box holds practically \$40.00 in pennies. The weight blocks (placed on top of the cards) are of metal and serve to lock the slots after the last card is vended.

#### EXHIBIT IMPROVED COIN SLOT

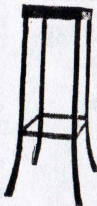

Our Exhibit non-rustable patented sliding coin slot is the simplest and clearest slot made. It cannot be worked with washers, etc.—practically slug proof. Made either for 1c or 5c play.

Price \$2.50

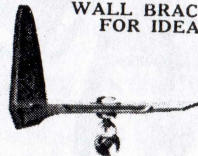

#### METAL STAND FOR IDEAL VENDER

A well made metal stand for the Ideal Card Vender. Sturdy in construction and built to last a lifetime. The Ideal is fastened to the top of the stand by a heavy bolt. The nut end of the bolt is in the cash box so that the machine can't be removed without access to the cash compartment. The stand comes knocked down for shipping.

Price \$3.50

#### WALL BRACKET FOR IDEAL

Price \$1.00

A strong, neat bracket made for securing the Ideal Card Vender to the wall. The Ideal vender is fastened to a bracket by means of a large bolt which passes through a hole in the bottom of the cabinet. The end of the bolt is provided with a hole for padlock.

## Starting a Legitimate Business with the Ideal Card Vender

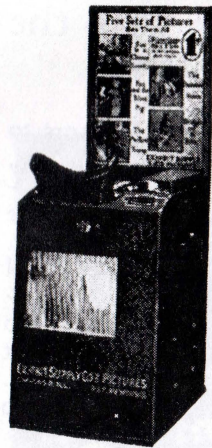

THE Ideal Card Vender is designed especially for operators to place out in good locations on a percentage basis—that is, you give the dealer a certain part of the earnings for the privilege of installing the machine. The Ideal can be operated in the same locations with other machines or operated separately. It is legal. It appeals to men, women, and children. It runs all the year round—the interest never wears off, because you simply change the cards and display signs every week or so to keep the pennies coming. You can make upwards of fifty different machines out of the Ideal by using our different cards and signs. The Ideal can be played 64 times before you get all it has to sell—other venders are usually played once. It has two slots, which further increases the play. The Ideal Card Vender can be operated profitably in school stores, drug stores, ice cream parlors, pool rooms, restaurants, cigar stores, railway depots, dance halls, roller rinks, hotel lobbies, department stores, bathing beaches, summer resorts—anywhere you find men, women and children.

**HOW TO INSTALL THE IDEAL CARD VENDER.** Generally the operator gives the location \$2.50 for every thousand cards that are sold. This is 25%, but on this basis the Ideal will invariably earn the location from three to five times as much as other penny venders will do at 35% and 50%.

**SPECIAL OPERATORS FEATURE.** One main reason why penny operators prefer the Ideal is because it can be operated at distant points. The Ideal does not require anywhere near the servicing that other venders do. This is due to the fact that the Ideal money box holds practically \$40.00 in pennies. It means than an Ideal, 4000 cards, and the back door key can be left with the location. The dealer can thus keep the machine loaded with cards for several weeks. The operator keeps the cash door key and the pennies in the cash box are a check on the cards sold. After deducting the cost of the cards and the amount given to the dealer, the operator makes upwards of \$4.00 per thousand on the cards. In average locations the Ideal Card Vender is selling from 500 to 3,000 cards a week.

**YOU ARE THE MAN WE WANT.** If you are an experienced operator, you will immediately see the merits of the Ideal Card Vender. If you have never had any operating experience, then here is a business you can start with a small investment and which you can expand as fast as desired. Remember, you personally don't sell anything. You don't meet the public. You don't need business experience. You don't give up your present occupation. All you do is put out five, ten or more Ideal Card Venders and let them work for you. You look after the machines and collect the money during your spare time. **Send for the little booklet, "WHAT THEY WILL EARN"**, which tells you all about making money with Ideal Card Venders and how we include sufficient free cards to pay back the cost.

## Photoscope Picture Machine

Holds five sets genuine Exhibit Photographic Stereo Views. **T**HE Photoscope is known everywhere as the most up-to-date and profitable picture machine made. In its construction is incorporated every practical suggestion ever made to us by scores of successful operators and arcade men. The Photoscope is built to meet the universal demand for a small, strong, light-weight, and attractive drop picture machine that can be placed out in all sorts of locations on the percentage basis, or arranged in batteries in arcades, parks, and traveling shows. The secret of the success of the Photoscope is due to the thousands of sets of genuine photo, stereo views we make—comedy and western pictures, as well as art model pictures. Send for our Photoscope Circular and our Stereo View Circular.

Price \$35.00

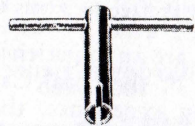

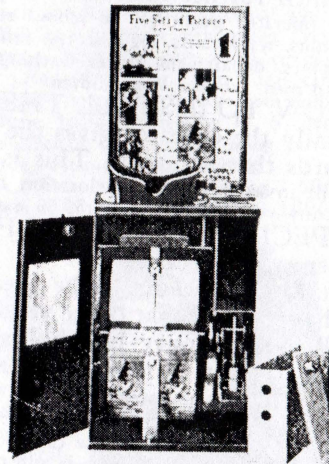

with 5 sets of pictures

Height 15"; width 8 1/2"; depth 11"; sign 11" high; weight 20 lbs

## Inside View

### SPECIAL FEATURES

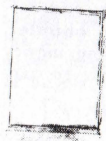

**S**MALLEST all metal picture machine made. Runs by a strong clock work motor. Has large cash box holding \$20 in pennies with separate lock. Equipped with our patented Exhibit non-rustable sliding slot, which can be supplied for either 1c or 5c play. Light is admitted thru heavy, prism glass windows. Both the reel of pictures and display sign can be quickly changed from one machine to another. Compartment with two dry batteries with electric light, if desired. Also fitted with 110 volt light to order. Simple to operate—all the player does is to insert his coin and push in on the slot to start the machine. Strong sheet-steel cabinet finished in dark green enamel.

### IMPROVED CLOCK KEY

This new style key is much stronger and will not wear out. The slotted end fits over a hardened pin in the end of the motor winding shaft.

Price 25c

### MALLEABLE IRON FRAME

The sign frame in the operators Photoscope is now being made from malleable iron which will not break.

Price \$1.00

Price \$2.50

### EXHIBIT IMPROVED COIN SLOT

One reason why the Photoscope is so successful is due to our patented Exhibit sliding slot—the best coin slot on the market. Cannot be operated with washers, paper, tin, etc. Easily removed from machine. Slot is now fitted with our replaceable trigger. Made in two models—one slot for 1c play and one for 5c play.

### EXHIBIT IRON STAND

This is a strong four legged metal stand made to fit the Photoscope. Operators will find this a handy stand to use where there is no counter space. Can also be used in arcades. This stand is supplied in three heights—24" for the kiddies; and 30" and 36" for adults. The stand is made of heavy angle iron, enameled black, and is shipped knocked down, is easily assembled. Photoscope is fastened to the top board of stand by a bolt which has a winged nut in the cash box.

Price \$3.50

## Start in the Picture Showing Business

**T**HERE is a fascination about pictures that appeals to everybody. You can make money by catering to this universal appeal. In the Photoscope you see the same movie stars for 1c as shown in the highest priced movies in town—Ben Turpin, Jack Hoxie, Billy Dooley, Bobby Vernon, Jack Duffy, Clyde Cook, Jack Padjan, Wally Wales, Buffalo Bill, Jr., Art Acord, Roy Stewart, Helen Holmes, etc., etc.; as well as hundreds of Western pictures and Comedies. Over a thousand sets to choose from. It is easy for you to get into the picture showing business because the Photoscope contains five sets of attractive pictures which stand out in startling, life-like relief and most people want to see all five sets. Locations near schools where the kiddies go are profitable spots for Photoscopes fitted with our comedy views. Pool rooms, cigar stores, restaurants, resorts, etc., are paying places for Photoscopes equipped with our Art Model views. You simply install the machine and give the proprietor 25 per cent of the cash box. Twenty-five or fifty Photoscopes require only a nominal investment, provide a nice income and give you enough changes of pictures to keep up the interest in the machines. Put your capital to work for you. Be the Photoscope operator in your territory. Send for large descriptive Photoscope circular.

## Combination Photoscope and Ideal

**H**ERE are the two best legitimate penny machines made—joined in one unit. An idea that is proving a money maker for operators everywhere. This is the most satisfactory way of operating as it does not take any longer to collect from two machines than one—you double your earnings without increasing your collecting expenses. This handsome combination can be set up in the best place in the store—right out in plain sight where machines get the biggest play. It is a profitable, legitimate proposition with a big repeat element—the same people patronize the machines day after day. It gives them a chance to spend all their pennies. Has more good coin getting features crowded into two square feet of space than any money maker ever offered operators. The strong special stand is made the correct size to hold one Ideal and one Photoscope.

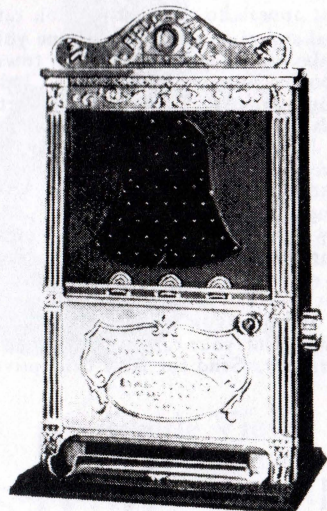

Price of Combination is \$53.50  
including 1,500 cards and double stand.

## BELL JACK

Reg. U. S. Pat. Off.

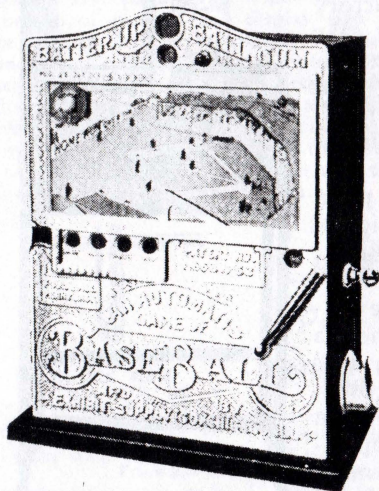

AN ingenious little device that collects the pennies "by the peck." To play, player drops coin through aperture at top, coin zig-zags down through pins on the Bell toward the three Bulls Eyes. The Bell is pivoted so that player may swing it from right to left by control handle on front of machine. This feature eliminates the stationery pin board feature objected to so strenuously by the authorities. When coin enters one of the Bulls Eyes, the knob on right side is turned, which dumps the contents of the jack pot under that particular bulls eye. Jack Pots are hidden which will allow this machine to run in some territories when other similar makes of machines are barred. Aluminum front, oak cabinet, a well constructed little machine that is a big money getter.

Price \$35.00

DIMENSIONS: Height, 22 in.; width, 13 in.; depth, 10 in.; weight 22 lbs.

## Batter-Up Ball Gum Vender

EVERY baseball fan is a steady customer of the Batter-Up. The brightly colored grand stand and diamond with opposing teams attracts and holds attention. When a penny is deposited, it drops down in front of the bat and can be knocked out into the field like a regular baseball. With practice the player can make a Home Run or a 2 Base Hit, for which rewards may be paid in trade. First Base and Second Base Hits do not score. A ball of gum is delivered each time by pulling a separate knob—this adapts the Batter-Up to the strictest locations. When a Foul Ball is knocked, the penny returns to the player without getting any gum.

The cash box is large and divided to register the coins. The gum compartment holds 700 balls of

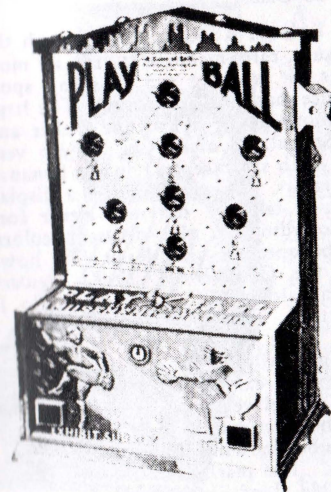

gum. The Batter-Up is a sturdy, well made little operators' machine that is a great repeater. Strong oak cabinet with polished aluminum front, easily detached.

Price each, \$30.00

DIMENSIONS: Height 14 inches; width 11 inches; depth 6 inches; weight 15 pounds.

## Playball Amusement Machine

(Reg. U. S. Pat. Office)

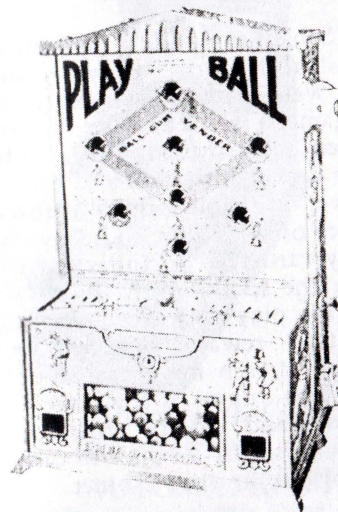

A GAME of skill that instantly appeals to customers. The fastest and most profitable penny machine made—a big repeater. Interest never wears off. Draws new trade. "You bat the penny like a ball." If the penny drops into a player's hands, you're out. If you're skillful enough to bat the penny through the outfield you score a 1, 2, 3 base hit, and get your penny back. A prize can be given if the penny goes into 1 run, 2 runs, or a Home Run. When installed as a Trade Stimulator it pays off to suit the operator and dealer; or it can be run as an amusement machine—everybody likes to play it. A simple machine—nothing to get out of order. Large cash box divided into compartments showing exact profits. A money getter—pays for itself over and over again. Cabinet polished aluminum. Pin board printed in bright colors, showing baseball diamond and players. Yale lock on cash box door. It is be-

ing run where target practice machines are prohibited. In big demand by operators. Machine fitted with lugs ready to be attached to wall or counter. Adjustable counter attachment \$1.50 each.

Price each, \$20.00

DIMENSIONS: Height 19 inches; width 12 inches; depth 8 inches; weight 12 lbs.

## Playball Ball Gum Vender

THIS is our popular Play Ball machine equipped with the ball gum vending feature. The best and most attractive target machine made. Rewards can be paid on all Runs, which are registered in special compartments in the cash box. The penny is returned on all Hits. When Caught Out, the penny passes through one of the openings in the pin board into the large compartment in the cash box. After each Caught Out, the player can get a ball of gum by pulling a separate knob; if he does not pull the knob he does not get the gum. The Ball Gum is attractively displayed thru the window in front. Every operator knows the big steady earnings of the Play Ball, and the ball gum vending combination opens up a large restricted field to this machine.

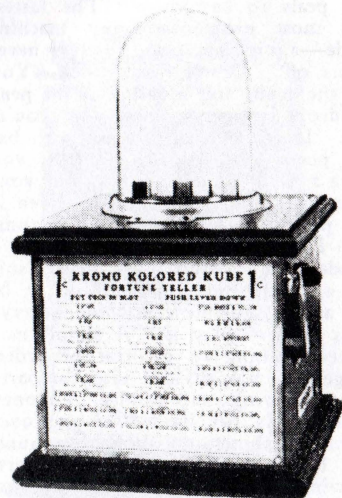

Price each, \$30.00

DIMENSIONS: Height 19 inches; width 12 inches; depth 9 inches; weight 15 lbs.

## The Kromo Kolored Kube Game

(Registered U. S. Pat. Office)

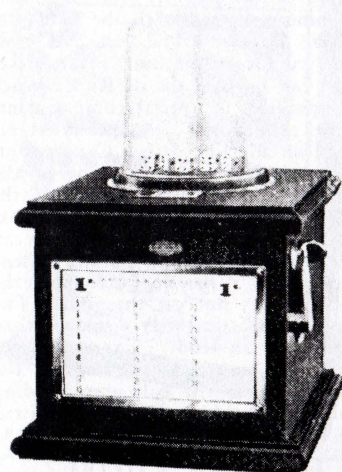

THE Kolored Kubes combined with the fortune card make it lawful in most localities. It is being run in many spots where dice machines are barred. The happy combination of a Fortune Teller and Trade Stimulator makes the Kromo very popular with storekeepers. It is a bonanza for operators. The Kromo has a display sign which tells 27 different clever fortunes according to the different colors. What the operator and dealer like however is the *Confidential Trade Reward Card* sent along with each machine. It boosts trade. The play is fast. It is a repeater. The interest lasts. The player gets a fortune each time and also has a chance for an extra reward in trade. To operate, the player deposits his coin and presses the lever on the side. This shakes up the cubes showing different color combinations. The machine is simple, strong, and durable. Unfailing action. Large coin compartment. Cash box door and lock. Natural oak cabinet. The Kromo is made

for 1c play, also for 5c play to order. The price is so low that every operator can buy in lots of 5, 10, and 25 at a time.

Price \$12.50

DIMENSIONS: Height 13 inches; width 8 inches; depth 8 inches; weight 7 pounds.

## JUNIOR DICE MACHINE

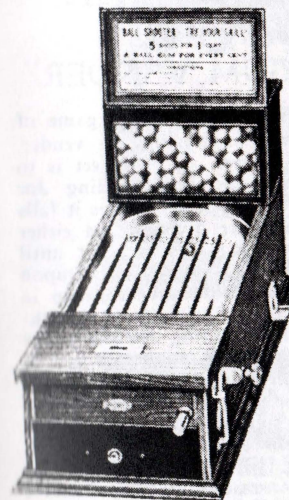

THIS handsome little machine is built to meet the steady demand for a well made and inexpensive dice game. There are five dice on a green felt covered table. The player deposits his coin and presses the lever on the side. This 'throws' the dice on the table. The regular display card tells fortunes according to the spots on the dice. To stimulate play however, a special percentage reward card is sent along with each machine to boost sales. The Junior is a winner for operators and dealers. Made for 1c play, also for 5c play to order. Natural oak finished cabinet.

Price \$12.50

DIMENSIONS: Height 13 inches; width 8 inches; depth 8 inches; weight 7 pounds.

## FIVE BALL SHOOTER

(With Ball Gum Vender)

A CLEVER skill machine that always attracts the attention of the players. There are seven runways each numbered 5, 10, 25, 50, 75 and 100. The object is to shoot the 5 balls, one at a time, into the biggest numbers thus getting the best possible total count. Players compete to see who can make the highest score. The dealer can also give a prize for a certain large score. To operate, the coin is placed in the slot and the side lever pressed down. This brings the 5 balls into position for shooting, one at a time. In this new model the player cannot beat the machine by tipping as each runway is protected by a gate. By turning a small knob on the side of machine, the player can also receive one ball of gum for each penny. The gum compartment holds 700 balls. A very efficient, dependable machine. Big profit assured. Cash box door. Natural oak finished cabinet.

Price with Gum Attachment \$25.00

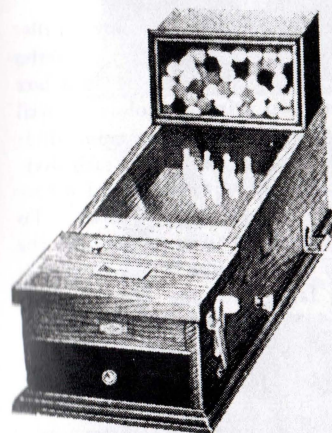

Price without Gum Attachment \$20.00

FIVE BALL SHOOTER (Without Gum Vender)

Same machine as described above but without ball gum vender feature, furnished at a lower price. This model should be used for Arcade equipments. See page 43.  
DIMENSIONS: (with ball gum attachment) Height 15 in.; width 8 in.; depth 21 in.; weight 18 lbs.

## AUTOMATIC BOWLING ALLEY

(With Ball Gum Vender)

A MINIATURE bowling alley with ten pins. Every man who bowls will play the Bowling Alley over and over again. The object is to see how many pins can be knocked over. It is a game of skill. Players compete to see who is the best bowler. There is one shot for each penny. To operate, the penny is put in the slot and the side lever pressed down which brings the steel ball in position to shoot. After the shot, a button is pressed on top of the machine which resets the pins. By turning the side knob a ball of gum is vended after each play. The gum compartment holds 700 balls of gum. This machine has stood the test of time, it is still selling fast after 20 years on the market. Finished in natural oak, exposed metal parts nickel plated.

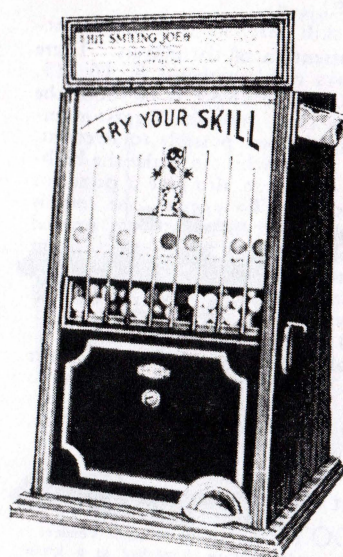

Price with Gum Attachment \$25.00

Price without Gum Attachment \$20.00

AUTOMATIC BOWLING ALLEY (Without Gum Vender)

Same machine as described above but without ball gum vender feature, furnished at a lower price. This model should be used for Arcade equipments. See page 43.  
DIMENSIONS: (with ball gum attachment) Height 15 in.; width 8 in.; depth 21 in.; weight 18 lbs.

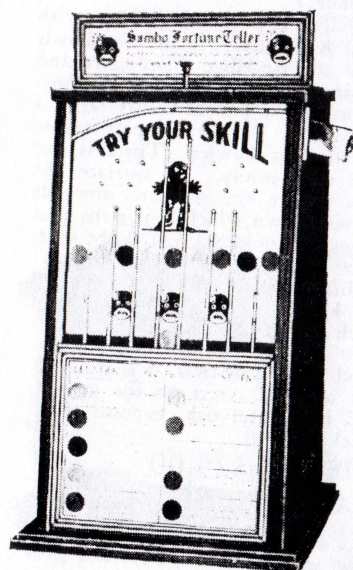

## SMILING JOE Penny Back BALL GUM VENDER

A FASCINATING legitimate game of skill as well as a ball gum vender. Can be run anywhere. The object is to knock the penny into the Smiling Joe compartment. If the penny misses it falls into one of the four divisions on either side. The penny remains in sight until the side lever is pressed down, whereupon a ball of gum is vended into the cup in front. If the player succeeds in knocking the penny into Smiling Joe the penny is returned to the player with one ball of gum. This keeps up the interest and stimulates play. Large cash box. Bright colored display sign. Gum compartment holds 2,000 balls of gum. Natural oak finished cabinet. A great game for the kiddies and a steady earner wherever used.

Price \$27.50

DIMENSIONS: Height 21 inches; width 12 inches; depth 10 inches; weight 20 lbs.

## SAMBO FORTUNE TELLER

A COMBINATION Fortune Teller and Game of Skill. The Sambo appeals to operators because the cash box registers on two winning colors as well as on "Sambo." There are nine divisions on the display board and each division has a corresponding color and a fortune reading on the sign below. To operate, the player tries to knock the penny into the "Sambo." If he misses the penny falls into one of the other nine divisions. The penny stays in sight until released by the button on top of the machine. "Sambo", a wonderful trade stimulator, a clever fortune teller and a steady penny getter. Attractively finished. Natural oak cabinet. Cash box divided into compartments to check trade pay outs.

Price \$22.50

DIMENSIONS: Height 21 inches; width 12 inches; depth 10 inches; weight 18 lbs.

## LUCKY HORSESHOE FORTUNE TELLER

Everybody knows the horseshoe is a sign of luck. To find a horseshoe is an omen of happiness. Who would pass by this little machine without first having his fortune told? There is a green four-leaf clover at the top of the horseshoe. On each leaf is a penny slot and an important question. There are two models with different questions.

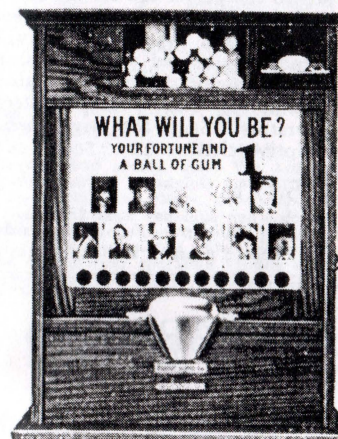

The player drops a penny in the slot of the question he wants answered. If the answer is no, then the penny is returned to the player, if yes, then the penny drops into the cash compartment.

Small, oak, polished cabinet. Metal work and display sign finished in bright colors. All it takes in is profit—a great little penny getter.

Dimensions: Height 16 in.; width 12 in.; depth 4 in.; weight 6 lbs.

Price each, \$10.00

## FORTUNE BALL GUM VENDER

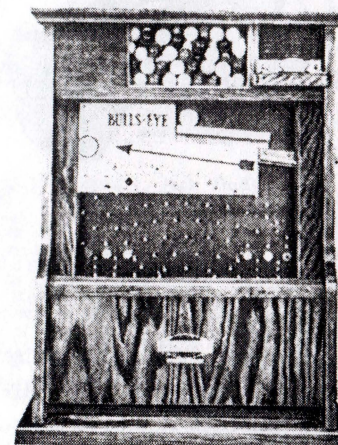

Here's a great penny getter for school stores and similar places where children congregate. The player not only gets a ball of gum each time, but the machine also shows a comic picture of what he will be when he grows up—a cowboy, policeman, shiek, sailor, etc. Creates lots of fun and is a steady repeater. Legal—can run anywhere. To further stimulate trade certain pictures can be made extra prize winners. Gum compartment holds 400 balls of gum and can be loaded without access to other parts of the machine. Cash box has separate lock and holds over \$25.00 in pennies. With each machine we send two different display cards for boys and two for girls. These display cards can be changed occasionally to keep up the interest. Strong wood cabinet, with glossy oak finish. Fitted with our patented non-rustable Exhibit sliding slot.

Dimensions: Height, 18 in.; width, 14 in.; Depth, 6½ in.; Weight, 14 lbs.

Price each, \$35.00

## BULLS-EYE BALL GUM VENDER

A new target machine. The fastest penny getter ever made. It is a ball gum vender with the shooter feature, and the premium feature—all in one machine.

OPERATION—The player deposits a penny, pushes in on the slot and this releases a ball of gum, which rolls down into the shooter. The player then hits the plunger on the side of the cabinet, which shoots the ball of gum at the Bull's-Eye. If the ball misses the target it bounces down over the pins and may drop into one of the three reward compartments, on either side. Otherwise it will roll out of an aperture in front where the player can get it. If the player does not get a reward in trade he receives full value each time—a ball of gum. It uses standard size ball gum. The mechanism is strong and simple. Heavy natural oak cabinet. Each reward paid out registers in the cash box, which has a separate lock. The Bulls-Eye is cheap to operate and a big trade stimulator.

Dimensions: Height 18 in.; width 14 in.; depth 6½ in.; weight 14 lbs.

Price \$30.00

## LUCKY PHOTO VENDER

(5c SLOTS)

THE Lucky Photo Vender is similar in general construction to our popular Ideal on page 64. The main difference is that the Lucky is equipped with two of our nickel slots and sells our cards for 5c each. These cards and the plan of selling are described below. The Lucky has a window in the cash compartment showing the last coins played—the best protection against slugs. There is also a round window in each side of the cabinet through which the player can see the cards. The cash box holds \$100.00 in nickels and has lock and key. The Lucky Photo Vender, combined with our numbered cards is one of the most profitable trade stimulators ever offered dealers and operators. Send for large special descriptive circular.

Price \$25.00

Including 1,000 numbered cards, which when sold pay back \$50.00.

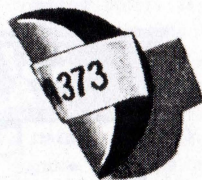

Re-orders of numbered cards cost the dealer \$5.00 per loading of 500 cards.

DIMENSIONS: Height 11 inches; width 7½ inches; depth 9 inches; weight 10 lbs.

## NUMBERED CARDS

FOR LUCKY PHOTO VENDER

ANY of our many different series of cards can be used in the Lucky Photo Vender, but our Art Model cards are generally preferred for adult trade. There are 500 cards in a package—just enough to load the machine. Each card has a concealed number on the back under a seal (see picture to right). Numbers run from 1 to 500 and are thoroughly mixed. Certain numbers call for merchandise free, as specified on the reward card. There are no blanks—the player receives a beautiful card each time. Six different reward cards go with the machine. Many different prize schemes can be used—the interest never wears off.

Send for our complete list of attractive postcards.

## EXHIBIT POST CARDS

WE are the originators and the world's largest makers of high grade cards designed to be vended exclusively from Exhibit popular card vending machines; such as pictures of Famous Film stars; Movie Comedians; Cowboy and Western pictures; Prizefighters; Baseball Players; Art Models and Bathing Beauties; Fortune Telling cards; Comic cards, etc. To keep up the interest in these venders we aim to publish one or more new series every sixty days. Our printing plant is equipped

with the very latest labor saving machinery, which, combined with our own methods and big output, enables us to produce these cards at such a low cost that they can be retailed profitably at 1c each. Special features such as heavy white and tinted cardboard, accurate dieing, special gathering, duotone printing, and new variety, are the secret of our cards vending so successfully and selling so fast.

**SPECIAL POSTCARD CIRCULAR:** We publish over fifty different series of cards for operators and arcade use. We are continually releasing new series and discontinuing older series. A sample card of each new series is mailed to operators and to arcade managers every thirty days. A fine large illustrated postcard circular will be mailed promptly upon request.

**NOTICE:** The service we give and the cards we manufacture are exclusively for operators of Exhibit Supply Company postcard vending machines. We reserve the right to reject orders from operators of any other postcard vending machine.

Price of Exhibit Post Cards is \$3.60 per thousand

F.O.B. Chicago

## EXHIBIT STEREO VIEWS

THE Exhibit Studios at Hollywood, California are the largest and best equipped in the world for producing fine stereo views designed exclusively for Exhibit drop picture machines as well as machines of other old standard makes. We spend thousands of dollars and originate hundreds of new sets of stereo pictures yearly. Due to the energy and progressiveness of the Exhibit Supply Company it is now possible to procure stereo views of many Famous Film Celebrities—"You see the same movie stars for 1c as shown in the highest priced movies in town"—Ben Turpin, Walter Hiers, Jack Hoxie, Helen

Holmes, Billy Dooley, Jack Duffy, Bobby Vernon, Art Acord, Wally Wales, Jack Padjan, Clyde Cook, Roy Stewart, and many others. This galaxy of stars can all be seen now in Exhibit Comedy and Western Stereo pictures. Arcade managers and operators everywhere are doubling and tripling the earnings from their drop picture machines by using these up-to-date stereo views, which never fail to get a big play from the public.

Our line of Art Model Stereo Views cannot be excelled. We have unlimited facilities in our Hollywood, California studios to obtain studies of the most beautiful subjects. Our latest Art Model Stereo Views never fail to get top money wherever shown. Every set of views we publish are passed by the New York censors.

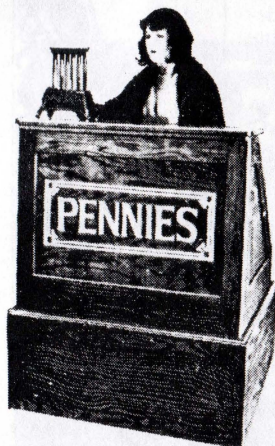

**SPECIAL STEREO VIEW CIRCULAR:** Our line of stereo pictures is continually changing—new sets are being added regularly. Send for our latest circular showing hundreds of Comedy and Western, as well as Art Model titles. Over 2,000 sets listed from which you may make your selection.

## COLLAPSIBLE CASHIER'S DESK

**T**HE Exhibit Portable Cashier's Desk is a handsome, well made piece of furniture. It is constructed of heavy oak in natural finish, and the surface is protected with spar varnish to withstand weather conditions. It is designed so that the upper part can be folded up and packed into the base, making a very compact and portable package.

A good sized cash drawer is provided—containing six divisions for coins of different denominations, as well as a space for bills and papers. The top of the desk is a handy counter over which to make change. The word "PENNIES" is painted in large attractive letters on the front panel, so as to be seen at quite a distance. Inside the desk there is plenty of room for the attendant to sit down on a regular chair.

The base platform is high off the ground away from wet and

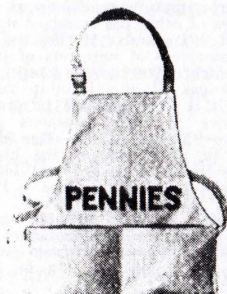

dampness giving an unrestricted view of all machines.

In addition to being a profitable addition to the arcade this desk provides the owner or attendant with a convenient and comfortable means of serving patrons with one big important item in every arcade—PENNIES.

Price \$90.00

DIMENSIONS: Set Up 4 ft. high, 3 ft. sq. Folded, 3 ft. sq., 10 in. deep.

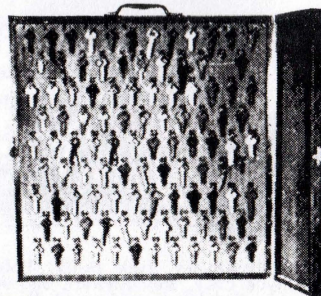

## MECHANICS' CHANGE APRON

**A**N absolute necessity in every arcade. Made of heavy strong khaki canvas. Adjustable shoulder and belt straps. Provided with two large pockets in front in which to carry coins. The word PENNIES is printed in large black letters on the front.

Price \$2.50

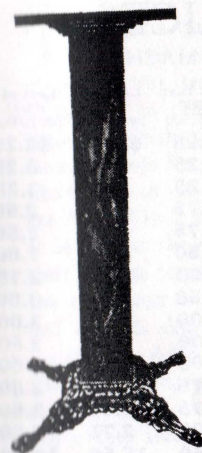

## KEY CABINET

**O**NE of the most important things about the arcade is the cash box keys. This Key Cabinet not only protects your keys, but keeps them in systematic order. In time saved alone, the key cabinet will soon pay for itself. Holds 104 keys—each hook numbered. The cover is felt lined. The cabinet is very compact when closed and is provided with lock and carrying handle. Made of oak, natural finish. Size 20 inches square; weight 12 lbs.

Price \$30.00

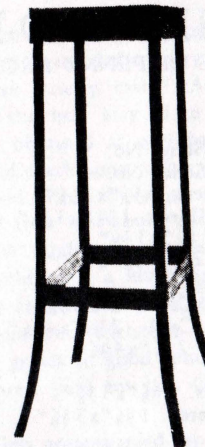

## Oak Pedestal

A large, handsome pedestal, designed especially for arcade use. The base is a heavy casting. The column is made of oak. Height 36", weight 30 lbs.

Price \$10.00

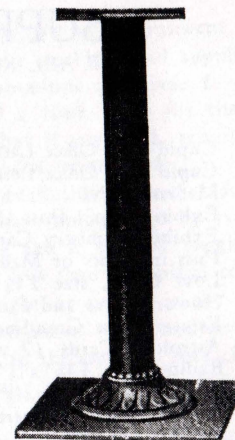

## Iron Stand

New four-legged metal stand suitable to use with the small machines we manufacture. Supplied in three heights: 24", 30", 36". The top is of wood. Weight 13 lbs.

Price \$3.50

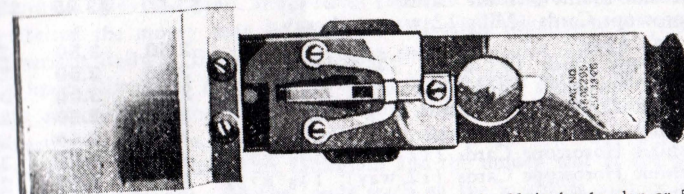

## Iron Pedestal

Massive Iron Pedestal made to carry a heavy load or where severe jerks are directed against it when supporting athletic machines. Height 36 in., weight 45 lbs. Enamelled different colors.

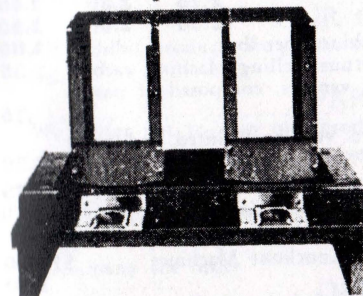

Price \$15.00

## EXHIBIT IMPROVED COIN SLOT

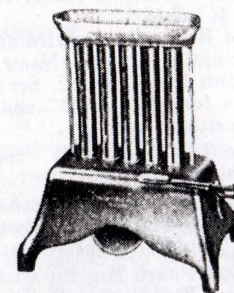

The best coin slot on the market. Made of non-rustable steel. Made for 1c play or 5c play. Fitted to most every machine we manufacture. Price each \$2.50

## All Steel Card Compartments

Now being fitted to all Exhibit card venders. No wood to warp, shrink or swell. The cards are entirely enclosed in metal, which cannot get out of adjustment. Quickly installed into any of the Exhibit D or E card venders now on the market. Price complete as per cut \$20.00

## Penny Changer

Holds about \$5.00 in pennies. When lever is pressed, five pennies are delivered into the hand. Rapidly reloaded by simply dumping the pennies into the hopper. A big time saver for any location using pennies. Strongly made and well finished. Height 11", width 9", depth 5 1/2", weight 10 lbs. Price \$20.00
